

There is literally nothing like the Supernova series remarkable self-contained extractors that clean in both forward and reverse! The patented two-way system provides unparalleled productivity in any setting, clean up to 6,000 square feet in one hour. All models operate forward in hallways and other open areas, but with a simple pull of a lever instantly change to reverse to clean corners and other tight areas for a dramatic reduction in labor costs.

A specially designed floating vacuum head and agitator brush allows cleaning on hard floors in addition to carpets without any cumbersome attachments. Just walk off carpet on to hard floors, it's that simple. Dual vacuum motors and a 19" cleaning width on the 800 and 1200 models combine with a host of other exclusive features to guarantee unrivaled performance.
