 72" x 24" Utility Tables – 695750 GY/WN/RGBY/BK  
 72" x 30" Utility Tables – 695751 GY/WN/RGBY/BK

## Step 1

Lay table top on the floor and insert the hanger bolt on each leg into each corner bracket.

## Step 2

Fasten one lock-nut (Part A) onto each hanger bolt using the wrench (Part C).

## Step 3

Insert 4 screws (Part B) into the marked holes on the tabletop by the top base of each leg.

**TO ADJUST LEG HEIGHT**—Use the allen wrench (Part D) to remove the two allen screws and lock-washers from the bottom side of each upper leg. Once removed, slide the lower leg to your desired height and then re-fasten the allen screws with lock washers to each upper leg.
