

# Global Industrial™ Lift-Out Light Duty Guard Rails

708429

Lift-Out/Drop-In light duty guard rail system offers effective protection for machinery against forklift and pallet trucks, while providing temporary access or barrier protection for pedestrian control. Guard rails are easy to install; simply slide rails into posts. Constructed from **11-gauge steel** with high visibility OSHA safety yellow powder coated finish. Ultra-durable construction with a **5,000 lb. impact rating at 4 mph.**

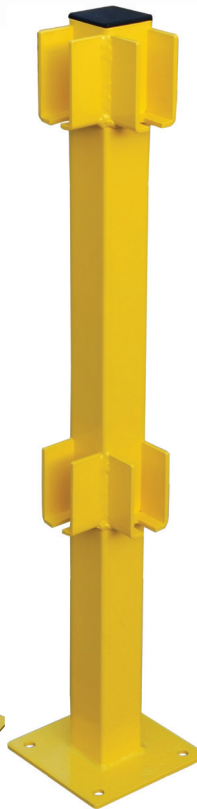

**Rails** constructed from 2" x 4" welded steel.

**Posts** constructed from 3" x 3" welded steel with 8" x 8" base plates.

**Post Mounting Hardware** Model 652901
