

BD114–0012 Cover Your Cough Compliance Kit

MADE USA

Product Description:

- Kit Includes:
 - RS004-0212 Respiratory Hygiene Station
 - Dispensing unit mounting area, holds two boxes of masks, and one - two boxes of facial tissues
 - Quartz Beige ABS Plastic
 - KS010-0412 Floor Stand
 - Quartz Beige Powder-Coated Steel
 - MP-075 Sign Holder Horizontal
 - Holds 11" x 8.5" signage
 - Clear PETG Plastic
- Assembly hardware included

Primary Area for Product Usage:

- All ports of entry
- · Anywhere respiratory hygiene products are needed

Dispenses:

- Left: Dispensing unit no larger than 8.35"W x 14.75"H x 5.00"D (21.2 cm x 37.5 cm x 12.7 cm)
- [Note: Refer to automatic dispensing specifications on detection distance requirements.]
- Middle: Box(es) no larger than 8.00"W x 9.50"H x 4.75"D (20.3 cm x 24.1 cm x 12.1 cm)
- Right: Box(es) no larger than 5.50"W x 9.50"H x 4.75"D (14.0 cm x 25.4 cm x 12.2 cm)

Product Specifications (overall assembled dimensions):

- 22.25"W x 58.06"H x 17.00"D (56.5 cm x 147.5 cm x 45.7 cm)
- 18.1 lbs (8.2 kg) approximated

Package Specifications:

- Package Quantity: 1 per case
- 36"L x 20"W x 6"H (91.4 cm x 50.8 cm x 15.2 cm)
- 23.0 lbs (10.4 kg) approximated

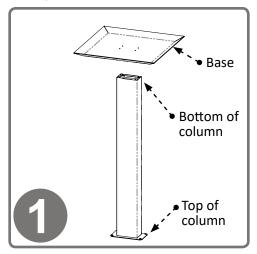

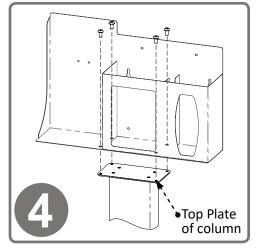

BD114-0012 Cover Your Cough Compliance Kit Assembly Instructions

Installation

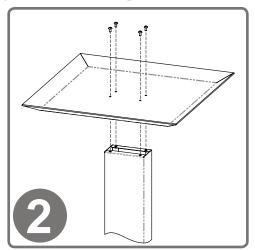

Always mount dispensers securely prior to loading with product.

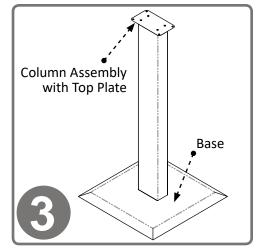

To secure base to column, turn column upside down (with top plate down) and place base inverted, as shown, on column.

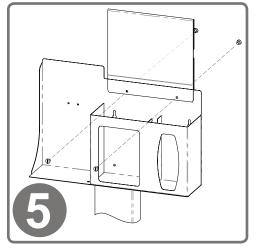

Attach the RS004-0212 Respiratory Hygiene Station to the column using (4x)screws included with stand. Tighten.

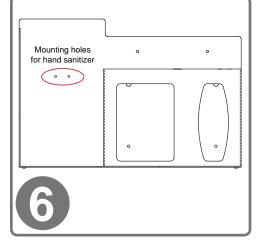

Use Phillips screwdriver to secure base to column with (4x) screws (10-32 x 5/16").

Turn stand right side up, so the base is on the floor.

To mount the MP-075 Sign Holder, align the mounting holes of the holder with the holes on the top front of the dispenser. Attach using (2x) barrel screws included with sign holder.

Attach hand sanitizer dispenser using VHB tape or mounting holes provided.

Parts included:

- Base
- Column
- **Respiratory Hygiene Station**
- Sign Holder

Tools <u>Required:</u>

Phillips Screwdriver •

Hardware

Flathead Screwdriver

(2x) Barrel screws

• (8x) 10-32 x 5/16" Phillips head screws

Characteristics & Care

Designed for Long-Term, Heavy-Duty Applications Designed for Long-Term Use Designed for Long-Term Use The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness. Dur steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion. Dur steel dispensers are distands are coated with polyester powders which makes them highly resistant to corrosion. Copolyester resin is designed for heavy-duly applications, and is used to possesses high strength and performance characteristics at a reasonable cost. Dowder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature. Copolyester resin is designed for heavy-duly applications, and is used to powder-coated steel are both attractive and functional, providing years of service. Copolyester (PETG) is typically 15-20 times tougher than general purpose acrylic. PETG is made to withstand handling and reduce losses due to breakage. Use mild scoap and water to clean. Petroleum-based olis, solvents, and paints should not be used. Stor best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a no- barasive clost. Standard hospital cleaning supplies can be used. Most cleaning chemicals do not weaken the surface or cause dorange to the material. Suggested cleaning method is to use a soft cleaning method is to use a soft	RS004-0212 ABS Plastic	KS010-0412 Powder-Coated Steel	MP-075 PETG Plastic	
Applications Applications The combination of copolymers (Acryointifie, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness. Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion. Applications Copolyester resin is designed for heav-duty applications, and is used by BOWMAN® Dispensers. ABS is chemical and stress-crack resistant. It is tough, dimensionally stable, and will hold up to long term use. It possesses high strength and performance characteristics at a reasonable cost. Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature. Copolyester (PETG) is typically 15-20 times tougher than general purpose acrylic. PETG is made to withstand handling and reduce losses due to breakage. Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service. PETG resists a variety of chemicals and commonly used cleaning agents. It is tough and durable (not brittle), providing years of trouble- free functionality and long life. Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used. For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a non- abrasive cloth. Standard hospital cleaning supplies can be used. Most cleaning chemicals do not weaken the surface. Sugested cleaning method is to use a soft cloth, warm water, and mild soap.				
 Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used. Standard hospital cleaning supplies can be used. Dry with a soft cloth. Do not use any solvent-based materials, abrasives (e.g. Scotch-brite, steel wool), or apply excessive force 	Applications The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness.
