# ASSEMBLY INSTRUCTIONS

## 100, 200, 201, 350 SERIES Wire Cart

### TOOLS REQUIRED:

- (2) 7/16 wrenches or sockets
- (1) Large flathead screwdriver

1 person assembly

**NOTE:** Although this instruction sheet depicts the 100 series cart, it also applies to the 100, 200, 201 and 350 series.

### STEP 1

Set base upside down with legs pointing up to install casters. Place raceway cover onto caster stem and insert caster stem into base leg. While holding raceway cover up against caster, insert a hex head bolt into each leg hole, and secure with nuts facing toward inside of unit. Repeat with remaining casters.

### STEP 2

Place basket on base and align holes in bottom of basket with holes in top of base. Insert flathead bolts through hole in basket and through base, and secure with nuts. Tighten until bolt head engages nylon lock on nut.

**NOTE:** Your laundry cart is assembled and ready for use. If you purchased the Single Pole Rack or Double Pole Rack accessories, continue to page 2.

### WARNING

- Never allow children or adults to ride in or on cart, as it can cause serious injury or death.
- Be sure casters roll freely and turn easily.
- Place all loads in center of basket for balance.

### HARDWARE INCLUDED (Not to scale)

- x12 Nuts
- x4 Raceway covers
- x8 Hex bolts
- x4 Flathead bolts

100, 200, 201, 350 SERIES  
Wire Cart  
pg 2

Single Pole Rack Assembly:

HARDWARE INCLUDED (Not to scale)	
 x3 Nuts	 x1 Long hex bolt
 x2 Short hex bolts	

STEP 1

Position vertical rack pole so end with two holes is on bottom. Thread through inside of basket so it sits on outside of base. Line up holes and attach with long hex bolts and nuts. Tighten until bolt head engages nylon lock on nut.

STEP 2

Slide pennant head onto vertical upright, with head facing toward basket. Secure with short hex bolt and nut.

Double Pole Rack Assembly:

HARDWARE INCLUDED (Not to scale)	
 x6 Nuts	 x4 Long hex bolts
 x2 Short hex bolts	

STEP 1

Install vertical rack poles so end with two holes is on bottom and poles bend outward. Thread through inside of basket so they sit on outside of base. Line up holes and attach with long hex bolts and nuts. Tighten until bolt head engages nylon nut. Repeat for both sides.

**\*IMPORTANT\***

STEP 2

Place crossbar between vertical rack poles and position so tabs at end of crossbar are pointing up. Secure with short hex bolts and nuts at each end.
