CARE INSTRUCTIONS FOR LOCKERS

CLEANING OF LOCKERS:

The lockers are coated with a baked powder-coat finish. They require cleaning with a VERY MILD, NON-ABRASIVE type product.

POLISHING OF LOCKERS:

An all-purpose neutral, non-oily and non-abrasive cleaner/polish is recommended. Check with your local chemical or janitorial supplier.

NEVER:

Hose with water.

Clean with a highly toxic cleaner that contains ammonia or acid.
