Surface Mount Fire Extinguisher Cabinet

Model(s):

670597 (Fits 2 1/2 - 5 lb Ext.)

670598 (Fits 10 lb Ext.)

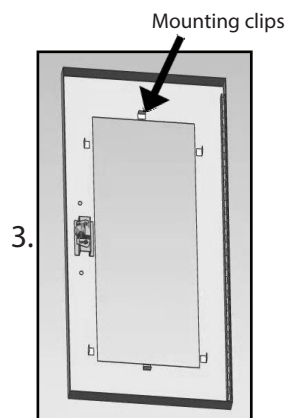

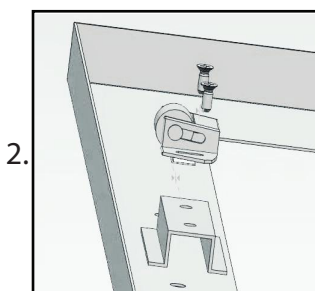

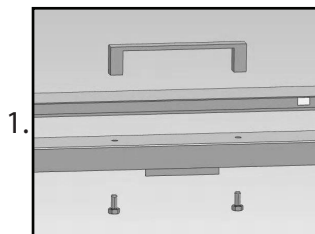

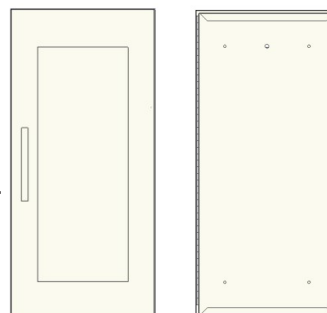

⚠ WARNING

- If mounting to building wall, check for electrical wire, plumbing and potentially dangerous hazards
- If mounting to steel post or beam, contact professional service company to mount cabinet

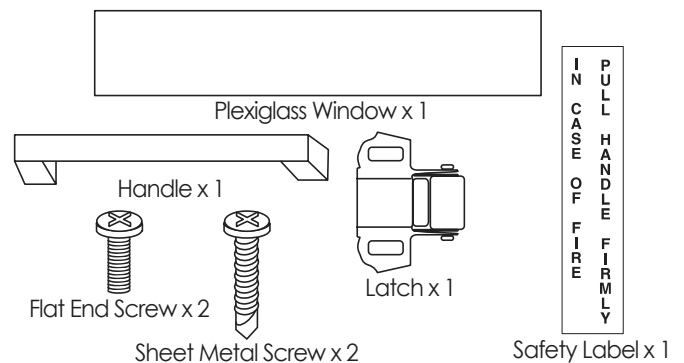

ASSEMBLY INSTRUCTIONS

1. Using a Phillips head screw driver, attach the handle to the door using two flat end screws.
2. Attach the latch to the inside of the door using two self drilling screws.
3. Remove the protective film from the plexiglass window and place it on the inside of the door. Fold the sheet metal mounting clips over the window.
4. Place the safety label on the front face of the door, under the handle.

PARTS LIST

MOUNTING INSTRUCTIONS

- For wall studs, use #10 x 1 1/4" wood screws
- For sheetrock, mount a 3/4" wooden board (not included) to the wall first using 3/16" toggle bolts. Make sure the board extends at least 2" beyond all sides of the cabinet. Mount the cabinet to the board using #10 x 1" wood screws.
- For cinderblock or cement, use 1/4" toggle bolts or #10 masonry lead screw expansion anchors
- For concrete or tile wall, use #10 masonry lead screw expansion anchors.

NOTE: wood screws, toggle bolts, masonry anchors and other mounting hardware not included.
