Indoor Vertical Bike Rack Mount, Single Track

Model(s): 670510, 670511, 670512

⚠ WARNING

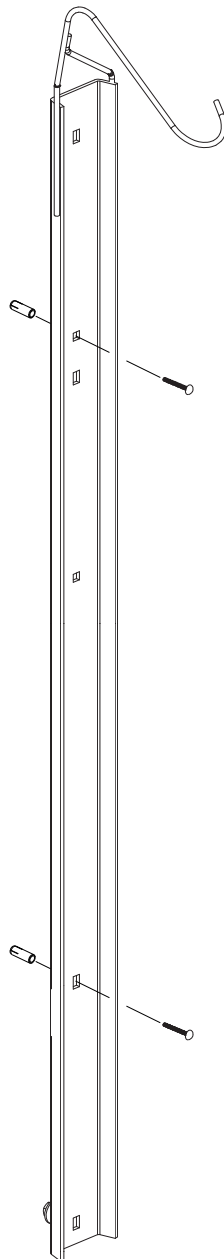

- Prior to drilling into any wall, ensure it is clear of electrical wires, plumbing or any other obstructions.
- Ensure that anchors are secure before hanging bicycle on track.
- **DO NOT INSTALL BIKE RACK IN DRYWALL.**

NOTE: Mounting hardware not included.

Model no.	Mounting hole dia.
670510	8.5 mm Ø
670511	7.5 mm Ø
670512	7.5 mm Ø

Mount track to wall, pillar or post using correct hardware. Correct hardware will depend on the material the track is being drilled into.

If mounting to M# 670508 Frame, use M8 x 40 mm head screws included in M# 670508 packaging.

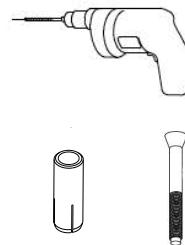

CONCRETE INSTALLATION INSTRUCTIONS

1

Using the track as a template, mark at least 2 holes in the wall.

2

For concrete, use a hammer drill and concrete drill bit (not included). Drill holes to depth in accordance with chosen anchor bolt type and size.

3

Insert anchor bolt sleeves into holes. Hammer until fully inserted. Place rack over sleeves and affix bolts. Tighten until sleeve is secured.
