### **TILLER ARM CONTROLS**

Travel, lift, and lower functions are located in the ergonomic operator handle. All operator controls are accessible without having to lift the hand from the handle.

Angle grips are designed to allow easy operation with either hand. Wrap around guard, reversing switch, thumb control, and horn are standard. Low mounted tiller arm offers excellent operator comfort and minimum steering effort. Gas assisted spring handle gently returns handle to vertical position.

Crawl speed function with steer handle at 5° back-tilt from vertical allows for ease of use in tight areas.

### **ELECTRICAL**

24-Volt ZAPI travel controller with matching drive motor provide high performance throughout the entire speed range. Travel speed remains constant relative to throttle position regardless of load -neutral braking. Separately fused power control circuits, quick disconnect EPD power cut off, hour me-ter / battery discharge indicator combina-tion gauge and lift lock-out complete the system.

# Walkie Pallet Truck

LOW COST MOTORIZED PALLET TRUCK, IDEAL FOR CROWDED LOADING DOCKS, WORK CELLS AND CONGESTED AISLES.

Power configurations and diagnostic features are displayed with a ZAPI handheld console.

### **HYDRAULICS**

Lift cylinder has hard chrome plated rods. Pump unit including motor, solenoid, gear pump, and pressure compensated lowering valve are mounted high in the power compartment for ease of service.

## **DRIVE UNIT**

Vertically mounted drive motor is direct mounted to gear housing. Oil bathed bevel gear drive train with tapered roller bearings transfers power to axle. State of the art optimized gear tech-nology supplies advantages such as mini-mal envelope circle, zero maintenance, low noise level, high efficiency and high performance.

Electromagnetic brake is mounted on motor armature shaft multiplying the braking power through the transmission. Brake is applied when control arm is in the vertical or horizontal handle position. System features anti-roll back and neutral braking.

# FORK ASSSEMBLY

Boxed rail fork construction with pallet entry slide allows easy pallet entry by lifting the fork up and over bottom board.

Eight easily accessed grease zerks for ease of maintenance.

### **ACCESSIBLITY**

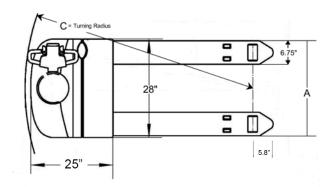

Removal of two piece power head cover exposes major components for inspection and maintenance.
