

GLAD HAND LOCKS

GLAD HAND LOCK—Plastic

- Casting made in the USA from high strength polyethylene
- Powder coated finish
- When ordered in volume each lock can be keyed alike, keyed individually
- Up to 3 keyed different lock numbers available
-

GLAD HAND LOCK—Metal

- Casting made in the USA from 6000 series aluminum alloy(6061 impact strength of cast aluminum)
- Powder coated red finish (custom colors available upon request)
- When ordered in volume each lock can be keyed alike, keyed individually
- Up to 3 keyed different lock numbers available

EASY INSTALLATION

The JENDYK glad hand lock is applied to the emergency brake (red) connection of the trailer. This lock must be removed before the air line from the tractor can be connected and thereby release the emergency brakes on the trailer. An excellent way to dead-line a trailer.
