

Model #CZ8008CN

Electric Oil Filled Radiator

Features:

- Adjustable Thermostat
- 4-Position Rotary Switch Control:
 - OFF
 - LOW Heat - 700 Watts
 - MEDIUM Heat - 800 Watts
 - HIGH Heat - 1500 Watts
- Front Mounted Control Panel
- Power Indicator Light
- Oil Permanently Filled
- Convenient Cord Storage
- Durable Metal Housing
- Tip-over Cutoff Switch
- Overheat Protection Sensor
- Silent Operation
- 120V A.C. 60Hz., 12.5A, 5120 BTUs

INTENDED USE:

This product is intended for indoor residential and office use only, not for industrial or other commercial application. Use only with electrical wiring that is in good working order and that meets applicable codes and ordinances. This heater must be plugged in to a 120V AC, 15 Amp. (or larger) circuit. Do not plug anything additional into the same circuit. If you have any questions whether your wiring is adequate, consult a qualified electrician. Risk of fire, overheating, malfunction, property damage, injury or even death may result if not adhered to.

Use your heater-fan only with a working smoke detector located in the vicinity of your heater/fan.

While using your heater/fan, you should follow the IMPORTANT INSTRUCTIONS listed below. As part of those instructions, we have used the word **"WARNING"** to indicate the level of hazard: **WARNING** indicates a hazard which, if not avoided, could result in injury or death.

IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

- Read all the instructions before using this heater/fan.
- This heater/fan is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. Use provided handle when moving this heater. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes and curtains at least 3 feet (0.9 meters) from the front of the heater-fan and keep them away from the sides and rear.
- Do not use heater unattended. Use of extreme caution is necessary when any heater is used by or near children, invalids, disabled persons or pets.
- Do not operate the heater with a damaged power cord or after the heater malfunctions, has been dropped or damaged in any manner. Return heater to authorized service facility for examination, electrical or mechanical adjustment or repair.
- Do not use heater outdoors.
- Use your heater only in dry environments. This heater is not intended for use in a bathroom, laundry area, or similar locations, or near sinks, washing machines, swimming pools or other sources of water. Never locate heater where it may fall into a bathtub or other water container. Do not use in damp environments such as flooded basements.
- Do not place the heater on a small, unlevel, uneven or any surface which might allow heater to tip or fall.
- For proper operation, heater should be placed on a smooth, non-combustible surface. Do not place on rugs, carpet, vinyl flooring or other plastic surfaces. Not for use outdoors or in wet areas.
- This heater is not designed as a primary heat source.
- Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip). Always unplug heater when not in use.
- Do not run power cord under carpeting. Do not cover cord with throw rugs, runners or similar coverings. Arrange cord away from traffic area where it will not be tripped over.
- To disconnect heater, turn controls off then remove plug from outlet.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire or damage the heater.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces like a bed, where openings may become blocked.
- A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint or flammable liquids are used or stored.
- Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons or property.

WARNING: SHOCK HAZARD

Use your heater only in dry environments. This heater is not intended for use in a bathroom, laundry area, or similar locations, or near sinks, washing machines, swimming pools or other sources of water. Never locate heater where it may fall into a bathtub or other water container. Do not use heater outdoors. Do not use in damp environments such as flooded basements.

WARNING: HOT SURFACES

Do not touch body of heater when in use. This heater is hot when in use, to avoid burns, do not let bare skin touch hot surfaces. If provided, use handles when moving this heater.

WARNING: FIRE HAZARD

Heater has hot and arcing or sparking parts inside. Do not use near combustible materials or flammable gases or sources of heat. DO NOT USE in areas where gasoline, paint or flammable materials are used or stored. Keep combustible materials such as furniture, pillows, bedding, papers, clothes and curtains at least 3 feet (0.9 m) from the front of the heater and keep them away from the sides and rear. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked. Do not place the heater near a bed because objects such as pillows or blankets can fall off the bed and be ignited by the heater. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock, fire, or damage the heater.

WARNING:

ELECTRICAL SHOCK HAZARD

Do not use with damaged cord or plug. Use with adequate electrical system that is up to code.

The supply cord has a polarized plug. As a safety feature this plug will fit in a polarized outlet only one way. To prevent electric shock, match wide blade of plug to wide slot, fully insert plug. If the plug does not fit contact a qualified electrician.

Do not operate any heater with a damaged cord or plug or after heater malfunctions, has been dropped or damaged in any manner. Do not operate heater with a broken heating element or ceramic cone or any visual imperfections. For repairs covered under warranty, see warranty statement. For all other repairs contact Comfort Zone® Customer Service by telephone or mail for information and assistance.

PET OWNERS NOTE:

The health of birds and some small pets are extremely sensitive to the fumes given off during the initial use of many appliances. Although these fumes are not harmful to humans, it is recommended that this heater not be used around birds and small pets during its initial use until the manufacturing corrosion coatings burn off.

USAGE:

HEATER OPERATION: Always operate the heater in the upright position following all instructions and recommendations listed in this manual.

HEATER LOCATION: Place the heater in the area of the room that is coldest.

HEATER CONNECTION: Plug heater directly into 120 volt A.C., 60 Hz wall outlet. Be sure plug fits tightly in outlet. A loose connection may cause overheating and damage to the plug or heater. NOTE: To prevent overloading a circuit, do not plug the heater into a circuit that is servicing other electrical needs. Make sure heater is at least three (3) feet away from walls, furniture, and other obstacles.

TURNING HEATER ON: The power indicator light will illuminate to show the heater is plugged in and has electric power. The heater has three heat settings: 600, 900 and 1500 watts. Use the 1500 watt setting to raise the room temperature quickly while thermostat control is at its highest setting. (During the heaters initial use, you may experience a slight odor or smoking. This is the result of residual lubrication on the steel "burning off". This is normal and will go away after a few minutes of use.) When desired temperature is reached, the 600 or 900 watt setting may be sufficient to maintain a comfortable temperature.

POWER CONTROL DIAL

- Position **I**: Low - provides 600 watts of heat output
- Position **II**: Med - provides 900 watts of heat output
- Position **III**: High - provides 1500 watts of heat output

SETTING THERMOSTAT: After the unit has warmed up, slowly rotate the thermostat knob counter-clockwise until the thermostat shuts off (you will hear a faint "click" sound). Leaving the thermostat at this setting will automatically maintain this temperature. For a lower temperature, rotate the knob further counter-clockwise.

TO TURN HEATER OFF: Rotate Power Control Dial to OFF position. Unplug unit when not in use.

CARE AND MAINTENANCE

CLEANING: CAUTION-Before cleaning the heater be sure to disconnect power cord and allow the heater to cool completely. This heater should be cleaned at least once a year to maintain proper performance. Clean the outside surface with a clean damp cloth. Do not use harsh chemical or abrasive cleaners. DO NOT IMMERSE THE HEATER IN WATER. Allow heater to dry completely before use.

REPAIR: DO NOT OPERATE THE HEATER WITHOUT ANY OF THE SAFETY FEATURES IN PLACE. DO NOT USE THE HEATER IF IT HAS MALFUNCTIONED OR BECOME DAMAGED IN ANY WAY.

STORAGE: Keep original carton for storage of the heater. Store the power cord to avoid damage during storage.

REFUELING: This heater is factory sealed and never needs refueling.

WHEEL ASSEMBLY INSTRUCTIONS:

CAUTION:Heater should not be operated without wheel brackets assembled.

1. Turn the heater upside down.
2. The wheel brackets should be mounded to the far ends of the heater.
3. Attach the Front Wheel Assembly to the front of the heater. Note: the front wheels are angled and they should face the front of the heater as shown in Fig. 1 and Fig. 2. Wrap "U" shaped bolt around the connector between the front of the heater and the first exposed fin.
4. Slide the angled end of the "U" shaped bolt through the outer holes of the wheel bracket as shown in Fig. 1.
5. Place threaded second end of the "U" shaped bracket through the remaining outer hole and tighten down wing nut securely (see Fig 2).
6. Attach second "U" shaped bolt around the last fin. Repeat the connection process for the Rear Wheel Assembly as shown in Fig. 3 and Fig. 4

LIMITED WARRANTY

Products manufactured by Comfort Zone® are warranted to the original consumer to be free of defects in material and workmanship for twelve (12) months from the original date of purchase. The warranty does not cover products modified outside our factory, damage or failure caused by acts of God, abuse, misuse, abnormal usage, faulty installation, failure to follow suggested maintenance procedures enclosed with this product (as defined by Magnuson-Moss Warranty-Federal Trade Commission Improvement Act) This unit is guaranteed to the original retail purchaser against defects in quality or workmanship for a period of one year from the date of original purchase. If this unit fails because of a manufacturing defect within 30 days of purchase, return the unit, with your receipt, to the retailer. After 30 days, but within the warranty period, if the unit was purchased within the continental united States, return it, freight prepaid, to Comfort Zone®. for repair or replacement. If the unit was purchased outside the continental united States, return the unit to the place of purchase. This warranty does not cover damage due to accidents, operation on other than 120 volts, 60 hertz, AC, current, or any other abuse. All implied warranties, including the warranties of merchantability and of fitness of purpose, if applicable, are hereby limited in duration to the period of one year from the date of original retail purchase. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. Incidental or consequential damages arising from a breach of either express or implied warranties are hereby disclaimed and excluded. Some states do not allow the exclusion of limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. No informal dispute settlement mechanisms are available. This limited warranty is given in lieu of all other warranties.
