

## SKID-MATE™ PROTECTION AGAINST SHOCK AND VIBRATION

### > AIR CUSHIONED PALLET PROTECTION

Each year, shock and vibration results in millions of dollars of damage during transport and handling of sensitive and valuable equipment.

The SKID-MATE™ is an air dampened cushioning device that provides a fast, cost effective and durable customized solution to protect sensitive products from shock and vibration. They can be easily mounted on a crate or pallet base, eliminating the need for expensive air-ride trucks. Skid-Mates are the most economical solution to transport.

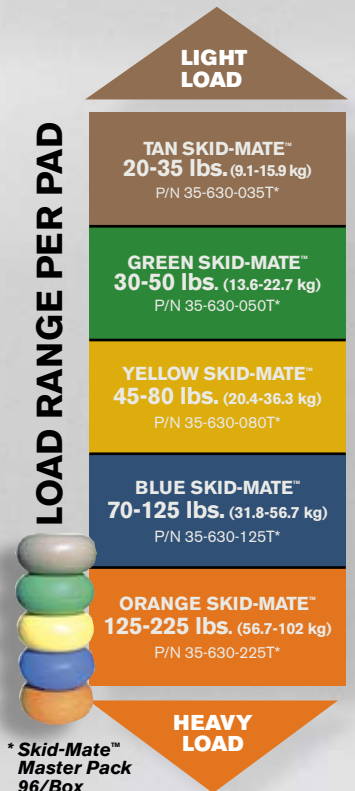

**SKID-MATE™**  
air dampened cushioning devices are easily attached to a pallet base with a 5/16" (7.9 mm) - 18 UNC bolt threaded into the molded-in insert.

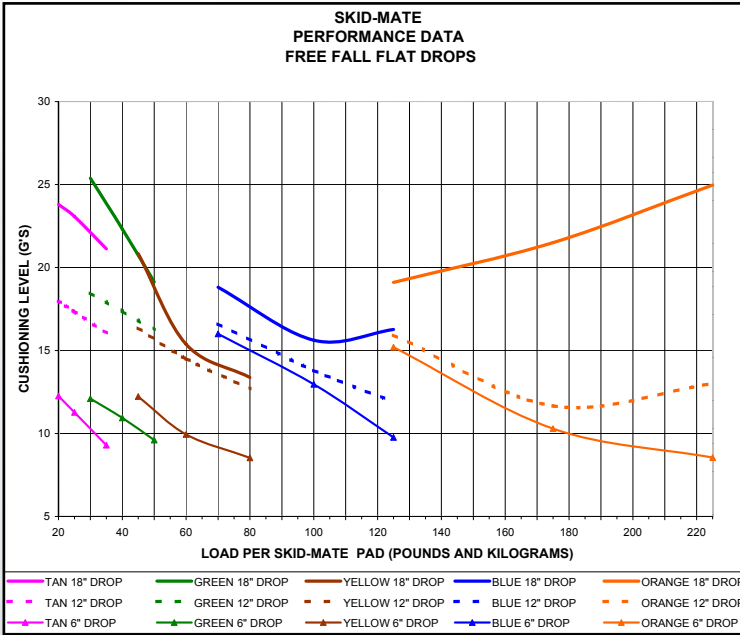

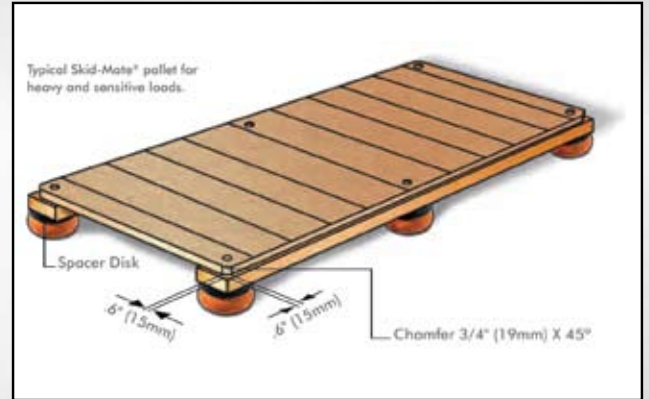

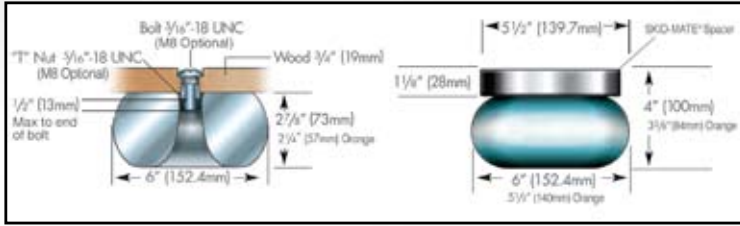

*Spacer also sold separately*  
P/N 2-020-00509  
*Spacer Master Pack*  
96/Box

**SKID-MATE+PLUS™**  
is a SKID-MATE™ cushion, plus a rugged polyethylene 1-1/8" thick spacer disk. The addition of the spacer to the SKID-MATE™ increases the total height to 4", capable of accepting most pallet jacks worldwide.

## > DETAILS

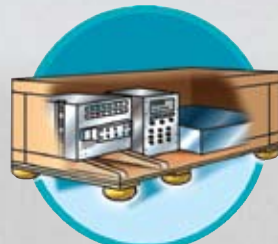

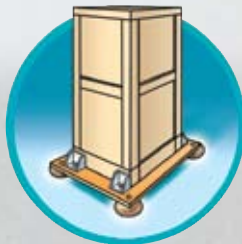

- SHOCK RESISTANT**  
 Reduce costly field service calls and repairs resulting from shock and vibration damage in transit.
- TOUGH AND DURABLE**  
 Under the maximum load, Skid-Mates can endure 3000 feet (914 meters) of dragging over concrete and floor joints.
- HI/LOW TEMPERATURES**  
 Skid-Mates are suitable for use between -40 F and +130 F (-40 C to + 54C).
- CHEMICAL RESISTANT**  
 Skid-Mates are made of polyethylene, a chemically inert material.
- RECYCLABLE**  
 Every Skid-Mate is environmentally friendly and reusable.

## > BENEFITS

- Reduce packaging design and assembly time and cost
- Eliminate costly damage from handling hazards during shipment

- Reduce costs associated with shock and vibration damage

- Provide protection during loading/unloading
- Eliminate the need for expensive air-ride vans
- Permits 4-way pallet entry design
- Easily add shock protection to crates/pallets
- SKID-MATE+PLUS™ fits most pallet jacks worldwide
