

LW60

Lab Workstation

Dual Lab Workstation. Ample space for two computers. Extend the Glacier look and quality into the computer lab. Lab workstations are 24"D overall. These stations can be stand-alone workstations or joined together in multiple configurations. Stations can be grouped back-to-back, or side-by-side. By using a Square or Round Corner Connector, units can be connected in various workgroup configurations. Shelves are fixed. Units come with 6"D backstops and the 15"D Keyboard Shelf is mounted at 27"H.
