IBC Spill Pallet

Model: 670785

Dimensions:

66.125" x 66.125" x 30.375"

Sump Capacity: 365g

Weight: 182lbs

Forklift Access: 4-Way

Color: Yellow

Compliance: Spill Prevention, Control and Countermeasure Act (SPCC). 40 CFR 264.175

IBC Spill Pallet Maintenance and Care Instructions:

1. Dispose of any chemicals in compliance with your local or federal regulations.
2. Once the chemical has been removed, use absorbent mats or pads to wipe down the inside of the containment unit to remove any remaining chemical residue.
3. Wash the unit, grates, and drain plug (if removed) with water and soap and allow to dry completely before using again.
4. The product should be frequently inspected for any spills or leaks. If a spill or leak is found, remove immediately from service

⚠ WARNING ⚠

Do not move when the deck surface is loaded with an IBC or other Container.

Do not double stack IBC containers.

Do not place an IBC that has supports with less than 6 square inches of load bearing area per foot on the deck unless a load distribution plate is used under each foot to prevent grate or deck failure.
