

Who Can Respond and Control a Bleeding Incident?

YOU!

Bystanders are always first
at the scene of an accident.
Become an empowered bystander.

If it's a work space, a public space or any space
YOU can make a difference and **SAVE A LIFE** with
First Aid Only's line of **BLEEDING CONTROL KITS**.

WHO?

For co-workers,
bystanders and immediate
responders at bleeding
trauma events.

WHAT?

For workplace
injuries including vehicle,
violence, falls, crush or
laceration injuries.

WHERE?

For jobsites,
manufacturing
environments,
office buildings, schools.

WHY?

To prevent the leading
cause of trauma deaths.

20%

who die from traumatic bleeding
injuries **could have survived**
if a skilled bystander stopped
the bleeding.*

A person can die from blood loss within

5 Minutes*
