

Storage carts allow multiple barriers to be picked up, moved and stored at one time. These carts store barriers horizontally in a stack which gives the cart a small footprint. Models are available with 12, 18 and 21 barrier capacities and each model is available with a version to take 2", 2.5" or 3" diameter barriers. Standard features include padded racks, a convenient storage tray, and rubber bumpers to protect walls. 6"/150mm steering wheels provide excellent maneuverability and wheel locks give stability while the cart is being loaded and unloaded.

Padded racks to protect barriers

Rubber bumpers to protect walls

Convenient storage tray

6" / 150mm locking wheels for excellent stability
