GENERAL USE

The Carousel rotates materials 360 degree with assistance of an operator. Loading and unloading operation done more efficiently; minimizes fatigue and risk of back injury. The carousel may be added to an existing work bench, scissor table or simply placed on the floor. Constructed from two pieces of rolled structural angle (3/16” thick). A series of sealed ball bearings transfer the load smoothly and evenly to the supporting surface. Four guide rollers keep the rings aligned.

LIFT TABLE USE

Fix the carousel on top of the lift table.
