

CHARGING STATION

LOTT12

12-PORT CHARGING STATION FOR CHROMEBOOKS, LAPTOPS, TABLETS, AND MOBILE DEVICES

Simultaneously charge up to 12 Chromebooks, tablets, laptops, MacBooks*, phones, and more with Luxor's space-saving AC charging station. Highlights include an open design that doesn't restrict device height and length, moveable divider fins that allow you to select between two slot widths for a customized fit, and compatibility with most tablets and laptops up to a 16" screen.

Hidden in the base is a 14-outlet, UL-Listed AC power strip, plus plenty of space to keep cables and power supplies neat, organized, and out of view. Grippy rubber feet keep the charging station stable and secure.

Ideal as a classroom charging station and great for libraries, medical clinics, retail establishments, and any other organization in need of a space-efficient, tidy solution to keep devices powered up.

*Apple MacBook Power adapters will require the Apple Power Adapter Extension Cable to fit.

NOTE: To prevent PC laptop and Chromebook power bricks from blocking adjacent outlets, short extension cords (also known as "outlet savers" and "wall wart removers") can be used.

Specifications:

- Overall: 23.6" W x 11.8" D x 10.9" H
- Adjustable divider slots: 4.1" H x 11.8" D x 0.5" or 1.3" W
- Device compatibility: most laptops, tablets, and phones up to a 16" screen
- Total weight capacity: 44 lbs.
- Individual divider slot weight capacity: 5 lbs. (note: combined weight of devices cannot exceed 44 lbs.)
- Power supply: UL-listed, 14-outlet AC horizontal power strip, 15A circuit breaker, on/off switch
- Power cord length: 10'

Features:

- 12 divider slots feature an open design that doesn't restrict the length and width of devices
- Movable ABS plastic divider fins allow users to select between 0.5" and 1.3" slot widths
- UL-Listed 14-outlet 120V/15A/1800W horizontal power strip with on/off switch
- AC outlets provide full passthrough power to a device's power adapter allowing for the fastest possible charging
- 15-amp reset circuit breaker prevents overloading
- Heavy-duty 14-gauge 10' power cord provides plenty of length to reach power outlets
- Fully enclosed inner compartment keeps cables and power bricks organized and out of view
- Base features durable metal construction with a powder coat finish
- Works with all types of devices and power adapters
- Rubber feet for stability and security
- No assembly required

12-PORT CHARGING STATION FOR CHROMEBOOKS, LAPTOPS, TABLETS, AND MOBILE DEVICES

LOTT12

The perfect, space-saving solution to keep devices powered up and organized. Its versatile, open design accommodates a wide range of devices, while integrated cable management features ensure cords stay neat and tidy.
