# CYL-EH, CYL-EH-FF, CYL-EH-FP, and CYL-EH-FP-FF Welding Gas Cylinder Dollies

#### **Receiving Instructions**

After delivery, remove the packaging from the product. Inspect the product closely to determine whether it sustained damage during transport. If damage is discovered, record a complete description of it on the bill of lading. If the product is undamaged, discard the packaging.

**NOTE:** The end-user is solely responsible for confirming that product design, use, and maintenance comply with laws, regulations, codes, and mandatory standards applied where the product is used.

#### **Technical Service & Replacement Parts**

For answers to questions not addressed in these instructions and to order replacement parts, labels, and accessories, call our Technical Service and Parts Department at (260) 665-7586. The department can also be contacted online at <a href="https://www.vestil.com/page-parts-request.php">https://www.vestil.com/page-parts-request.php</a>.

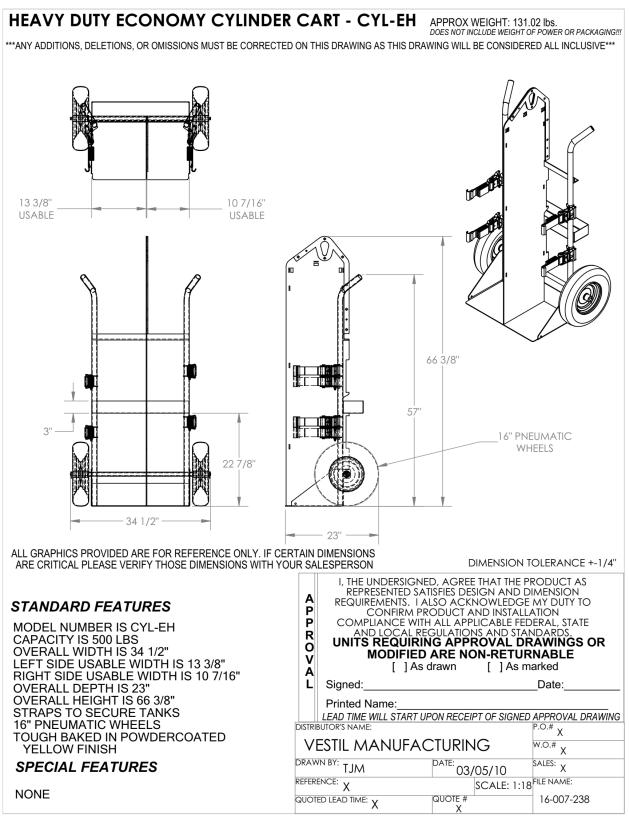

#### **Electronic copies of Instruction Manuals**

Additional copies of this instruction manual may be downloaded from <a href="https://www.vestil.com/page-manuals.php">https://www.vestil.com/page-manuals.php</a>.

### **SPECIFICATIONS**

Documents that provide specifications for CYL-EH series cylinder carts are available online to anyone who visits Vestil's website. Specifications include dimensions, net weight, and capacity information. Navigate to <a href="https://www.vestil.com/product.php?FID=886">https://www.vestil.com/product.php?FID=886</a>. Scroll to the *Product Specifications Table* portion of the page. Find the entry for the cylinder cart you purchased and click the button in the "PDF" column that looks like a pencil inside a blue-bordered box. A PDF file will open. This file is the specifications document. Print a copy of the document and keep it with your copy of this manual. The following is an exemplar specifications document for model CYL-EH.

#### SIGNAL WORDS

This manual uses SIGNAL WORDS to draw readers' attention to risks that could cause personal injuries, as well as the probable seriousness of those injuries, if the product is misused in the ways described. The NOTICE signal word calls attention to uses of the product likely to result only in property damage. The following are signal words used in this manual and their definitions.

⚠ DANGER Identifies a hazardous situation which, if not avoided, WILL result in DEATH or SERIOUS INJURY. Use of this signal word is limited to the most extreme situations. Identifies a hazardous situation which, if not avoided, COULD result in DEATH or SERIOUS INJURY.
M CAUTION Indicates a hazardous situation which, if not avoided, COULD result in MINOR or MODERATE injury.
NOTICE
Identifies practices likely to result in product/property damage, such as operation that might damage the product.

#### SAFETY INSTRUCTIONS

Vestil strives to identify foreseeable hazards associated with the use of its products. However, no manual can address every conceivable risk. To minimize the likelihood of being injured as a result of using this device, inspect and maintain the product as instructed in INSPECTIONS & MAINTNENANCE and exercise sound judgment whenever using this device.

## **AWARNING**

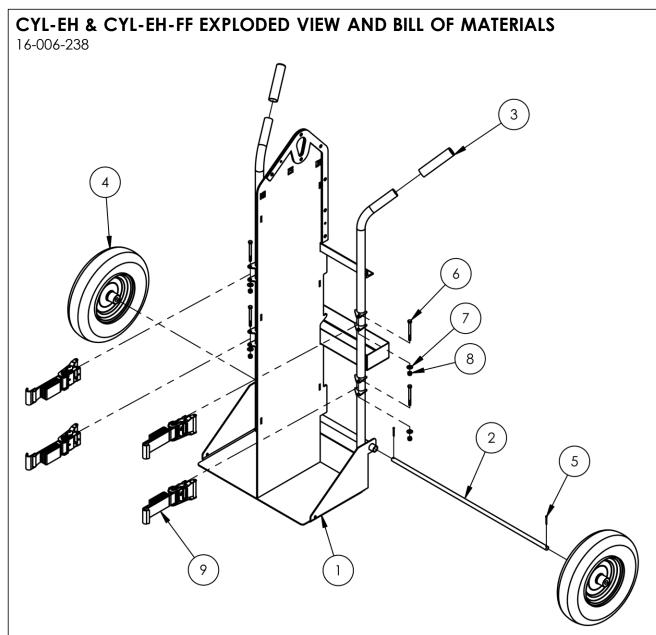

Risks of serious personal injuries or death.

- Read this manual in its entirety before assembling, installing, using, inspecting or servicing the product. A copy of this manual should always be available to all persons who assemble, install, use, inspect, or maintain this device.
- DO NOT exceed the maximum rated load.
- Inspect the cart as instructed in "Inspecting & Maintaining the Cylinder Cart" on p.
- 7. Remove the cart from service if the inspection reveals changes from <u>satisfactory</u> <u>condition</u>, including: 1) cracked welds; 2) corrosion, extreme wear, or other condition that affects the ability of the product to support weight; 3) significantly worn or damaged wheels; 4) missing ratchet straps. DO NOT use the product until it is restored to normal condition. ONLY use manufacturer-approved replacement parts.
- DO NOT transport a cylinder that does not seat securely in the brackets.
- DO NOT transport a cylinder without firmly applying the ratchet straps.
- ALWAYS apply safe lifting practices whenever the dolly is connected to a lifting device (e.g. overhead hoist)
- When transporting a cylinder up-or-downhill, always remain uphill to the cylinder.
- DO NOT remove or obscure any label. All product labels must be readable and undamaged.
- DO NOT modify the dolly in any way. Unauthorized modifications automatically void the limited warranty (see p. 7) and might make the dolly unsafe to use.

#### NOTICE

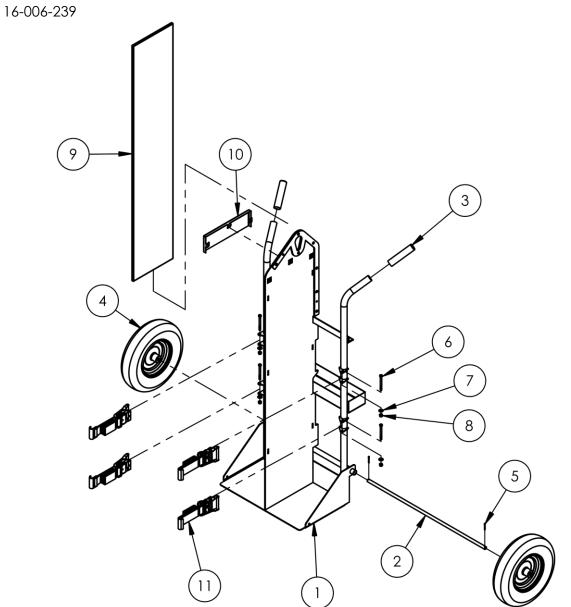

Proper use, maintenance, and storage are essential for this product to function properly.

o Keep the product clean & dry.

9	16-145-018	2" x 36" STRAP WITH RATCHET	4

#### USING THE CYLINDER CART

- 1. Place a cylinder on the cart. It should rest firmly against the crossbars.
- 2. Release the ratchet to extend the strap. To release the ratchet, pull the release lever toward the handle and pivot the ratchet handle as far from the ratchet base is it will travel—approximately 180 degrees. By pulling on the strap now, it will unwind from the spindle and increase the usable length. Ratchet parts are identified in Fig. B below.
- 3. Wrap the ratchet straps around the cylinder and connect the hooks to the hook slots of the divider.
- 4. Pivot the handle back (towards the base) and let go of the release lever.
- 5. Tighten the strap against the cylinder by moving the handle towards back-andforth.
- 6. To remove a cylinder from the cart, release strap tension by following the procedure described in step 2.

FIG. A: Cylinder dolly

## RECORD OF SATISFACTORY CONDITION (THE "RECORD")

Before using this cart for the first time, create a record of its appearance and features. Photograph the unit from multiple angles so that all features are clearly imaged. Take close range photographs of the ratchets ad straps, labels, handle grips, wheels, and welds. Collect all writings and photographs in a file. This file is a record of the unit in satisfactory condition. Compare the results of all inspections to this Record to determine whether the unit is still in satisfactory condition. Restore the cart to satisfactory condition BEFORE using it again. Cosmetic changes, like damaged surface coating (paint or powdercoat) are not changes from satisfactory condition. However, touchup paint should be applied as soon as damage occurs to prevent rusting. Left untreated, rusting could compromise the integrity of the metal.

#### **INSPECTING & MAINTAINING THE CYLINDER CART**

Inspections and repairs should only be performed by qualified persons. Compare the results of each inspection to the <u>RECORD OF SATISFACTORY CONDITION</u> (the "RECORD"). Do not use the cart unless all parts are in satisfactory condition. Replace parts that are not in satisfactory condition before using the cart again. **DON'T GUESS! If you have any questions about the condition of your cart, speak with <u>TECHNICAL SERVICE</u> personnel. The phone number is provided on the cover page of this manual. <b>Never make temporary repairs of damaged or missing parts**. Only use manufacturer-approved replacement parts.

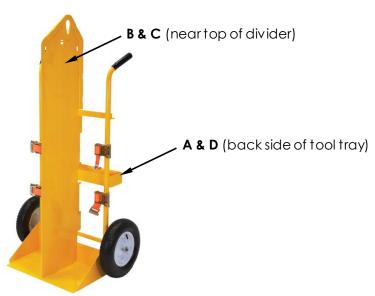

Make a dated record of each inspection that includes observations and descriptions of repairs and replacement parts installed.

Inspect the cylinder cart at least once per month.

- 1. Examine the frame for cracked welds, metal fatigue, rust, and corrosion that affects the structural integrity of the dolly. The structure should be clean, square and rigid, and free of rust and corrosion. Remove dirt and debris.
- 2. Check the ratchets and straps. Confirm normal operation and condition. Replace damaged straps and ratchets.
- 3. Labels: Confirm that all labels shown in the <u>LABELING DIAGRAM</u> are present, undamaged and easily readable. Order replacements for any labels that are missing or not easily readable.

#### LABELING DIAGRAM

Label content and location are subject to change, and therefore, your product might not be labeled exactly as shown in the diagram below. If the labels applied to your unit differ from those shown in the diagram, contact TECHNICAL SERVICE and report the inconsistency. Thoroughly photograph the unit when you first receive it as discussed in the <u>RECORD OF SATISFACTORY CONDITION</u> section on p. 7. Make sure that your Record includes at least 1 photograph of each label. Replace all labels that are, or later become, damaged, missing, or not easily readable (e.g. faded). To order replacement labels, contact the TECHNICAL SERVICE & PARTS DEPARTMENT online at https://www.vestil.com/page-parts-request.php or by calling (260) 665-7586 and asking the operator to connect you to the PARTS DEPARTMENT.

#### LIMITED WARRANTY

Vestil Manufacturing Company ("Vestil") warrants this product to be free of defects in material and workmanship during the warranty period. Our warranty obligation is to provide a replacement for a defective, original part covered by the warranty after we receive a proper request from the Warrantee (you) for warranty service.

#### Who may request service?

Only a warrantee may request service. You are a warrantee if you purchased the product from Vestil or from an authorized distributor AND Vestil has been fully paid.

#### Definition of "original part"?

An original part is a part used to make the product as shipped to the Warrantee.

#### What is a "proper request"?

A request for warranty service is proper if Vestil receives: 1) a photocopy of the <u>Customer Invoice</u> that displays the shipping date; AND 2) a <u>written request</u> for warranty service including your name and phone number. Send requests by one of the following methods:

US MailFaxEmailVestil Manufacturing Company(260) 665-1339info@vestil.com2999 North Wayne Street, PO Box 507PhoneEnter "Warranty serviceAngola, IN 46703(260) 665-7586request" in the subject field.

In the written request, list the parts believed to be defective and include the address where replacements should be delivered. After Vestil receives your request for warranty service, an authorized representative will contact you to determine whether your claim is covered by the warranty. Before providing warranty service, Vestil will require you to send the entire product, or just the defective part (or parts), to its facility in Angola, IN.

#### What is covered under the warranty?

The warranty covers defects in the following original, dynamic parts: motors, hydraulic pumps, motor controllers, and cylinders. It also covers defects in original parts that wear under normal usage conditions ("wearing parts"), such as bearings, hoses, wheels, seals, brushes, and batteries.

#### How long is the warranty period?

The warranty period for original dynamic components is <u>90 days</u>. For wearing parts, the warranty period is <u>90 days</u>. Both warranty periods begin on the date Vestil ships the product to the Warrantee. If the product was purchased from an authorized distributor, the periods begin when the distributor ships the product. Vestil may, at its sole discretion, extend a warranty period for products shipped from authorized distributors by up to 30 days to account for shipping time.

#### If a defective part is covered by the warranty, what will Vestil do to correct the problem?

Vestil will provide an appropriate replacement for any covered part. An authorized representative of Vestil will contact you to discuss your claim.

#### What is not covered by the warranty?

The Warrantee (you) is responsible for paying labor costs and freight costs to return the product to Vestil for warranty service.

#### Events that automatically void this Limited Warranty.

- Misuse;
- Nealigent assembly, installation, operation or repair;
- Installation/use in corrosive environments;
- Inadequate or improper maintenance;
- Damage sustained during shipping;
- Collisions or other accidents that damage the product;
- <u>Unauthorized modifications</u>: Do not modify the product IN ANY WAY without first receiving written authorization from Vestil.

#### Do any other warranties apply to the product?

Vestil Manufacturing Co. makes no other express warranties. All implied warranties are disclaimed to the extent allowed by law. Any implied warranty not disclaimed is limited in scope to the terms of this Limited Warranty. Vestil makes no warranty or representation that this product complies with any state or local design, performance, or safety code or standard. Noncompliance with any such code or standard is not a defect in material or workmanship.
