

# DISINFECTANT CLEANER

Concrobium® Broad Spectrum Disinfectant II is a botanically-derived, EPA-registered bactericide, tuberculocide, virucide and fungicide made from a proprietary blend of plant extracts and essential oils. The unique thyme-based formula offers several unique advantages.

## Recommended Uses

Concrobium® Broad Spectrum Disinfectant II can be used in hospitals, nursing homes, nurseries, medical offices, schools, military installations, athletic facilities, public areas, ambulances, institutional kitchens, cafeterias, restaurants, public restrooms, hotels and motels, shower and bath areas, zoos, prisons, dental offices, emergency areas, healthcare facilities, hospitals, intensive care, operating rooms, residential, dental operatories, by police and EMS.

## Ideal for

- Disinfecting hard, non-porous surfaces
- General cleaning and maintenance
- Odor control
- Kills 99.9% of bacteria
- Effective against MRSA, Human Immunodeficiency Virus Type 1 (HIV-1) (AIDS Virus), Human Rotavirus and Influenza A3 virus and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- EPA Reg #34810-25

The EPA has established a list of disinfectants that meet their criteria for use against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19. Concrobium Broad Spectrum Disinfectant has been approved for use against SARS-CoV-2 per EPA Reg. No. 34810-25.

COVID-19 (coronavirus disease) is caused by the SARS-CoV-2 virus. Concrobium Broad Spectrum Disinfectant kills similar viruses and therefore can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus on hard, non-porous surfaces. Refer to the CDC website at: <https://www.cdc.gov/coronavirus/2019-ncov/index.html> for additional information.
