## A New Generation of Specialty Cleaning Solutions

## Mold Control

Concrobium Mold Control® is an EPA-registered solution that eliminates and prevents mold without any harmful chemicals. The colorless, odorless solution physically crushes mold spores, and treated surfaces retain a protective barrier that prevents the growth of mold and mildew. Safe on most surfaces including fabrics.

---

## Mold Stain Remover

Concrobium® Mold Stain Remover is a ready-to-use solution composed of two liquids that, when combined, create a powerful formula that targets and removes mold stains with no scrubbing or rinsing. Concrobium Mold Stain Remover is the ideal choice for professional mold remediators. Safe on most surfaces including fabrics.

---

## Broad Spectrum Disinfectant II

Concrobium® Broad Spectrum Disinfectant II is a botanically-derived, EPA-registered bactericide, tuberculocide, virucide and fungicide made from a proprietary blend of plant extracts and essential oils. The unique thyme-based formula offers several unique advantages.

\*COVID-19 (coronavirus disease) is caused by the SARS-CoV-2 virus. Concrobium Broad Spectrum Disinfectant kills similar viruses and therefore can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus on hard, non-porous surfaces.

---

## Odor Eliminator

Concrobium® Odor Eliminator's unique probiotic formula effectively neutralizes odors on hard and fabric surfaces caused by flooding/water damage, garbage, compost/food waste, human waste, pets, smoke and more. The solution can also be used as a pre-cleaner for lightly soiled areas. It is great for use in residential, commercial, industrial and institutional facilities.

---

## Calcium, Lime & Rust Remover

Concrobium® Calcium, Lime & Rust Remover is a non-corrosive, readily biodegradable solution that safely and effectively removes calcium, lime, rust and hard water stains with no toxic fumes. It's also septic safe.

---

## Odor & Moisture Control Packs

Restoration professionals are trusted to pack, transport and store their customers' valuable contents. Yet stored contents and their containers are often subjected to high humidity and stagnant air. Concrobium® Odor and Moisture Control Desiccant Packs stay dry on the outside to ensure contents remain odor-free, dry and protected.
