

Narrow Dish Brush

Series 4287

Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage a breeze

Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and small enough to handle fine particles

The head of this brush is narrow and small. The raised angle of the grip promotes quick and effective cleaning because the operator's hand and arm are in the ergonomically correct position. It's great for cleaning dishes and small areas on equipment.

Narrow Dish Brush

4287

The Narrow Dish Brush offers a better way to clean. From dishes to small spaces on machinery, the brush's medium bristles and ergonomic handle make cleaning easy and efficient.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
