

Ceiling Squeegee

Series 7716

Draining Neck

Water drains through the squeegee when used with a draining handle

Flexible Rubber Blade

Blade conforms to curves surfaces like pipes to effectively collect condensed water

Replaceable Cassette

Rubber collection blade may be replaced to extend the usable life of the squeegee

This is a ceiling squeegee that is intended to be used with a draining handle to collect condensation that forms in high areas such as overhead pipes and ceilings.

Ceiling Squeegee

7716

Ideal for effective removal of condensation from ceilings and pipes. Collection of condensation prevents moisture from dripping into food product or on costly machinery.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
