

# Ø1.6” Tube Brush for Flex Rod

Series 5368

## Medium Bristles

Bristles are strong enough to scrub away tough messes and small enough to handle fine particles

## Easy Attaching Handle

End securely connects with flexible handles 5350 and 5325 to clean long pipes

This medium bristle tube brush is great for cleaning pipes and other small areas. It is best used with flexible handles, 5350 and 53525. The metal 5350 handle can be combined with part 5346 to make the tube brush reach even farther into long pipes, and the nylon 53525 handle for the ultimate in flexibility.

## Ø1.6" Tube Brush for Flex Rod

5368

Reach into narrow, long pipes with the tube brush and our compatible handles. Choose highly flexible nylon or stainless steel handles to get the most from the tube brush. Medium bristles can handle scrubbing and still pick up small, fine particles.

### Specifications:

Length: 7.9"  
 Width: 1.6"  
 Height: 1.6"  
 FDA-Compliant Raw Material: Yes  
 Material: Polyester/SS  
 Unit Weight: 0.09 lbs.  
 Bristle Type: Medium

### Colors

When ordering, add the color digit to the base part number to denote color.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
