

Ø3.5" Pipe Brush for Flex Rod

Series 5391

Easy Attaching Handle

End securely connects with flexible handles 5350 and 53255 to clean long pipes

Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and small enough to handle fine particles

Tube brushes for flexible handles are a great solution for cleaning machinery and equipment with narrow valves, pipes, and other parts. This full-bristle tube brush cleans many commonly sized tubes and valves. The specialized thread on this brush fits the Vikan long flexible handles 5350 and 53525. The bristles are dense and firm enough to clean thoroughly, but flexible enough to move with the shape of the equipment being cleaned.

Ø3.5" Pipe Brush for Flex Rod

5391

Reach into long pipes with the smaller tube brush and our compatible handles. Choose highly flexible nylon or stainless-steel handles to get the most from the tube brush. Medium bristles can handle scrubbing and still pick up small, fine particles.

Specifications:

Length: 7.7"
 Width: 3.5"
 Height: 3.5"
 FDA-Compliant Raw Material: Yes
 Material: Polyester/SS
 Unit Weight: 0.15 lbs.
 Bristle Type: Medium

Colors

When ordering, add the color digit to the base part number to denote color.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
