

Long Stainless Steel Flex Rod Handle

Series 5350

Stainless Steel

Flexible rod is durable and chemical resistant

Sturdy Handle

Poly handle is food-safe and durable

Unique Thread

Thread can either screw into some of our specialty tube brushes or into extension part number 5346 to make the tool longer

This flexible rod is designed with a special screw-in thread for use for tube cleaner brushes, part numbers 5354, 5356, 5365, 5368, and 5391. The rod can be extended by 30 inch increments by attaching part number 5346. The flexibility is ideal for adjusting to clean curved pipes, such as sight-glasses on large tanks and hoses used for transferring liquids from one tank to another.

Extend length with additional extensions (5346)

Long Stainless Steel Flex Rod Handle

5350

Clean curved pipes easily with the Long Stainless Steel Flex Rod Handle and Vikan's corresponding tube brushes. The handle is flexible enough to follow any curved pipes, and can be made longer with Extension 5346.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
