

Stainless Steel Flex Rod Extension for Handle 5351

Series 5346

Easy Connection

End-piece easily connects with tube brushes to increase the length of the brushes

Strong and Flexible

Stainless steel flexible rod attachment adds length to tube brushes

Dual Purpose Connector

Connector can be used to add multiple extenders onto tube brush handles

This stainless steel extension rod can be added infinitely to Flexible Rod part number 5351 to enable internal cleaning of long feeder pipes. Designed for use with tube cleaners, part numbers 5354, 5356, 5365, 5368, and 5391.

Stainless Steel Flex Rod Extension for Handle 5351

5346

The extension can be directly connected to handle part number 5351 and Vikan tube brush heads, or can be added to more extension rods. Add as many extension rods as needed so workers can clean long pipes and tubes with one tool.

Specifications:

 Material: Stainless Steel
 Unit Weight: 0.23 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

Fully updated product specifications are available at Vikan.com.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
