

Handheld Cleaning Pad Holder

Series 5510

Stainless-Steel Clips

Food-safe stainless-steel clips make changing and securing pads simple

Wide Handle Grip

Grip is ergonomically friendly and makes applying pressure to scrub walls or tanks easy

Pad Grips

Small points help keep the pad in place when scrubbing

This handheld pad holder is an excellent tool for cleaning walls and tanks. It is also great for scrubbing stubborn dirt and cleaning underneath equipment. The clip mechanism is stainless steel, which prevents the pad from falling off once heavy with water.

Handheld Cleaning Pad Holder

5510

Stainless-steel clip mechanism holds pads in place, even when the pads are heavy with water. The pad holder can be used with one of our three types of pads to clean stainless steel, floors, and walls. It comes in five colors to support color-coded HACCP plans.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
