

# Ø0.6" Drain Cleaning Brush

Series 5360

## Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

## Flexible Handle

Stainless steel holds bristles tight and allows for cleaning in tight spaces

## Stiff Bristles

Perfect for scrubbing difficult dirt and for wet use with cleaning agents

This drain cleaning brush is used to clean small spaces between machine parts and for cleaning drainage holes in sinks. The short handle allows the operator to exert pressure to get drains clean, and the stiff bristles back the effort up.

## Ø0.6" Drain Cleaning Brush

5360

3 4 9

Small drains require specialty cleaning equipment, and the .6 Drain Cleaning Brush gets the job done. The brush is mounted on a flexible stainless steel rod that gets drains clean thanks to its stiff bristles.

### Specifications:

Length: 12.2"

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
