

# UST Medium Bench Brush

Series 4585

## Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

## Bristle Security Units

Fully-molded bristles are laid out in a unique pattern to allow for greater efficiency when cleaning

## Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

## Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and small enough to handle fine particles

This UST bench brush with medium Ultra Bristle Security is ideal for sweeping damp particles from conveyor belts, food preparation surfaces, tables, and equipment in high risk areas. The placement of the Bristle Security Units enables efficient sweeping of damp and wet particles.

## UST Medium Bench Brush

4585

The UST Medium Bench Brush is a workhorse in the food processing industry. From sweeping work surfaces, to cleaning up small floor messes, this medium-bristled brush can tackle it all.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
