

39" Stainless Steel Handle

Series 2983

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Durable Handle

Basic aluminum handle is durable and suitable for most applications in the food processing industry

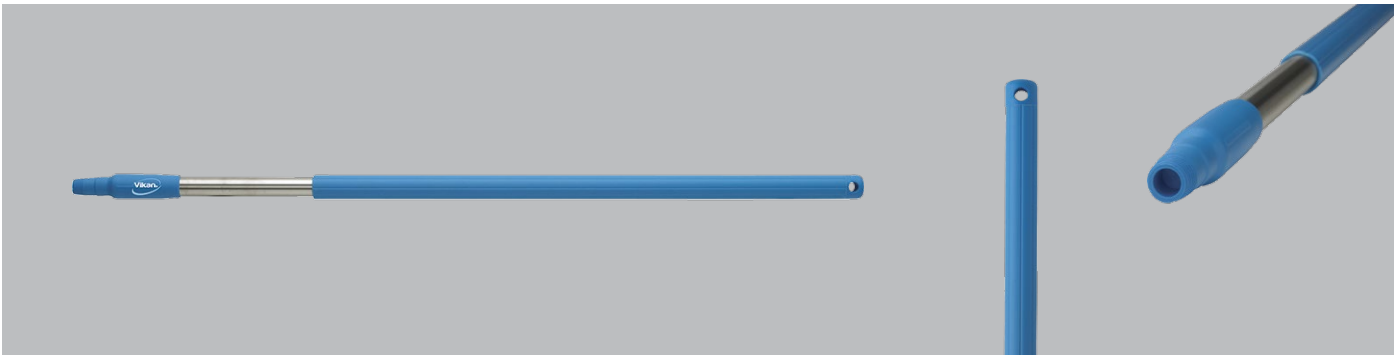

Hygiene Sleeve

Long hygienic sleeve increases durability and makes the handle ergonomically friendly

Hanging Hole

Color-coded hanging hole allows for easy storage

This stainless steel handle is suitable for cleaning with the use of aggressive chemicals and where the handle is exposed to a heavy-handed treatment. The hygiene sleeve makes the handle more ergonomically friendly and promotes color-coding programs.

39" Stainless Steel Handle

2983

Ideal for using in tight spaces where maneuverability is key, the Stainless Steel Handle is durable and made of FDA-compliant materials. The hygiene sleeve and hygienic Euro thread come in five colors to support color-coding programs.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
