

26" Basic Aluminum Handle

Series 2981

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Durable Handle

Basic aluminum handle is durable and suitable for most applications in the food processing industry

Hanging Hole

Color-coded hanging hole allows for easy storage

This medium length handle is ideal for applications where hygiene and cross-contamination is a concern. An economic solution to color-coding, the Basic Aluminum Handle is often used to clean benchtop surfaces, drains, and other tasks that don't require a full-size handle.

26" Basic Aluminum Handle

2981

A mid-size handle, the Basic Aluminum Handle is ideal for cleaning applications where a full-size handle isn't necessary, such as with machinery, bench tops, or drains.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
