

# Round Hand Brush

Series 3885

## Raised Grip

The grip keeps hands away from harsh cleaning chemicals or messes

## Hygienic Handle

The curved lines of the brush make it easy to clean and harder for cross-contamination to happen

## Stiff Bristles

Perfect for scrubbing difficult dirt and for wet use with cleaning agents

This round hand scrub brush is fully color-coded. It features a raised grip that helps keep workers' hands from touching surfaces and chemicals, allowing more pressure for better cleaning. It is also great for cleaning inside machines with small entry points. The brush's stiff bristles are best used with large particles or to clean up tough messes.

## Round Hand Brush

3885

Our Round Hand Brush is fully color-coded to support HACCP plans. The raised grip and stiff bristles are ideal for cleaning tough messes while being ergonomically friendly.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
