

59" Basic Aluminum Handle

Series 2959

Hanging Hole

Color-coded hanging hole allows for easy storage

Durable Handle

Basic aluminum handle is durable and suitable for most applications in the food processing industry

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Vikan's standard aluminum broom handle is an important part of color-coding programs and can be used with all brooms, squeegees and scrapers. The handle with the attached item should reach to the chin of the user to prevent occupational back injuries.

59" Basic Aluminum Handle

2959

An ideal solution for cleaning pipes, tubes, and drains, this handle is great for sanitation uses that don't require high manual pressure. When combined with any of our brush heads, it makes an economical solution for hygiene needs.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
