

# 3" Metal Detectable Scraper

Series 6961MD

**Remco**

## **One-Piece Construction**

Eliminates seams and crevices where bacteria can hide.

## **Thumb Indent**

Allows the user extra power for scraping tough or sticky substances.

## **Narrow Scraping Blade**

Ability to access tight spaces, such as conveyor belts.

Color-coded plastic scrapers support food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination. Metal detectable color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry.

### 3" Metal Detectable Scraper

6961MD

This metal detectable small hand scraper is an excellent solution for your scraping needs. The semi-ferrous additive in this product allows for use in conjunction with a metal detectable system. Metal detectable plastic is a lightweight and less costly alternative to stainless steel.

#### Specifications:

- Length: 0.1"
- Width: 3.0"
- Height: 8.1"
- FDA Compliant Raw Materials: Yes
- Material: Polypropylene with Semi-ferrous additive
- Unit Weight: 0.13 lbs.
- Deflection / Softening Temps: 183°F / 266°F

#### Colors

When ordering, add the color digit to the base part number to denote color.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
