

# Split Bristle Angle Head Broom

Series 2916

## Narrow Block

Easily reaches into tight spaces, such as in between equipment

## Use with Euro-thread Handle

Attaches to any length Euro-thread handle to fit a variety of tasks

## Split Bristles

Sweeps fine particles of debris like sugar and powders

## Angled Bristles

Bristles are angled to create a more ergonomic and comfortable user experience

The split bristle angle head broom is designed to handle fine particles like dust, flour, and powdered sugar. The soft/split bristles gently sweep away these powders without leaving residue. The broom head, made of FDA-compliant materials, comes in six colors, making it a great addition to any color-coded food safety or sanitation plan.

## Split Bristle Angle Head Broom

2916

Split bristles are ideal for picking up soft powders, such as those found in the baking industry, while also being tough enough to sweep away larger debris. This broom is ergonomically friendly and can be used in wet or dry applications.

### Specifications:

Length: 11.5"  
 Width: 1.75"  
 Height: 9.25"

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
