

# 2" Handle Mounted Stainless Steel Scraper

Series 4010

## Threaded Grip

Can be used with any Remco or Vikan  
hygienic threaded handle

## Hygienic Design

Smooth surfaces and no acute angles  
minimize areas for bacteria to collect

## FDA Compliant

Constructed from polypropylene and stainless  
flex steel, this hand scraper meets FDA  
compliance standards

## Slightly Rounded Blade Corners

Rounded blade corners prevent  
surface damage

Great for removing hard-to-reach sticky deposits and dried or burnt-on foods or ingredients, this scraper features a stainless flex steel blade with protective rounded corners, a high-strength attachment, and a threaded grip that fits any Remco or Vikan extension handle.

## 2" Handle Mounted Stainless Steel Scraper

4010

This scraper has a threaded grip that enables any Vikan color-coded handle to be screwed into the grips, which allows cleaning of difficult to reach areas. Slightly rounded blade corners prevent damage to the surface being cleaned and operator injury. Suitable for removing stubborn debris like chocolate and sugar deposits.

Fully updated product specifications are available at [Vikan.com](http://Vikan.com).

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
