

# Food Hoe

Series 2900

Remco

## Hygienic Euro Thread

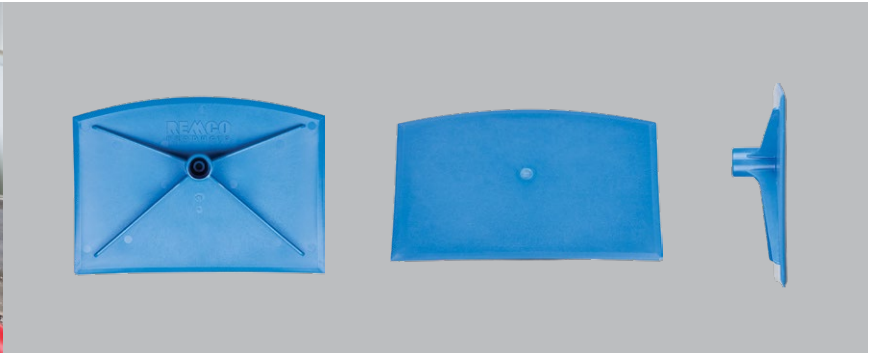

Hygienically designed Euro thread prevents walk-off and is easy to clean

## Nylon Construction

Durable nylon construction moves almost any product without breaking under pressure

Our durable nylon Food Hoe connects with any Euro-thread handle to move product efficiently, whether on a flat or a curved surface thanks to its uniquely versatile shape. The Food Hoe comes in five colors to support color-coding plans, which can reduce cross-contamination and allergen cross-contact.

## Food Hoe

2900

Remco's unique scraper is designed for both push and pull applications. It has the strength to move almost any type of product without breaking under pressure. Lightweight and long-lasting, its flat and arched edges make it the perfect tool for use on straight or curved surfaces.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
