

# ASSEMBLY INSTRUCTIONS

Use two people to lift and assemble your new room divider and in a few minutes you will have your divider ready for years of service. To complete the assembly process there are only four bolts to install.

## **PARTS LIST**

- One - 3/16" Allen wrench
- Two - 1½" x 1½" x 24" horizontal legs with casters attached
- Four - 5/16" Bolts
- Four - Lock washers

## **STEP 1**

Place divider on elevated assembly surface.

## **STEP 2**

Position leg assembly over the end panel so that the two holes line up. Insert bolts and tighten using the enclosed allen wrench.

## **STEP 3**

Repeat for other end.

## **STEP 4**

Lift divider from assembly surface and lower to the floor at a true 90° angle.
