MaxRack Hanger | Bike Rack

MaxRack System

SPECIFICATIONS

MaxRack Hanger is a space-saving, vertical bike hanger that is the key component of our modular MaxRack System. MaxRack Hangers offer greater density in a much smaller footprint than ordinary racks without scratching or tangling. MaxRack Hangers feature a unique, extended rod that makes hanging and removing bikes a cinch and a solid steel lock bar for maximum security. Both the front wheel and frame are U-lockable. MaxRack Hangers work with all tires and fenders– guaranteed.

Vertical Bike Rack: High density

- *Heavy-duty construction w/solid steel lock bars*
- *Indoor/outdoor use*
- *Accommodates all tires and fenders*

MRH (x4)
