

HIGH INTENSITY INFRARED HEATERS

EFFICIENT, COST EFFECTIVE RADIANT HEATERS 30,000 – 140,000 BTU/HR

- Instant heat – quiet, clean, odor free operation
- Minimize distributor inventory - multiple BTU outputs per model series
- *Orifices for alternate sizes ship with heater*
- Spark ignition heaters ship *with 120V / 24VAC / 40VA transformer*
- Millivolt control heaters ship *with thermostat*
- Made from non-corrosive materials – durable, rugged construction
- No direct venting required
- Maintenance free
- **Warranty: Pro-rated 10-yr.** (burner assembly), **limited 1 yr.** (gas control)
- **Optional: Retrofit decorative grid kit** (4000 & 8000 Series only)

Common uses:

- Loading docks • Warehouses • Factories / Assembly Areas • Pole Barns
- Farm Buildings • Restaurant / Outdoor Patios / Country Club Terraces
- Indoor Sporting Arenas • Vehicle Repair Bays • Public Entranceways

SERIES	Model	BTU/HR	Converts to BTU/HR	Mounting Clearance to Combustibles				Typical Mount Height
				Top	Sides	Back	Below	
4000	4040	40,000	30,000	34"	30"	30"	68"	10 - 12'
	8060	60,000	50,000 OR 70,000**	40"	30"	30"	84"	13 - 15'
9000S	9100S	100,000	80,000 OR 90,000	48"	46"	46"	118"	15 - 28'
9100	9120	120,000	100,000 OR 140,000**	46"	46"	46"	114"	18' +

**70,000 & 140,000 BTU/HR heaters only available in NG models

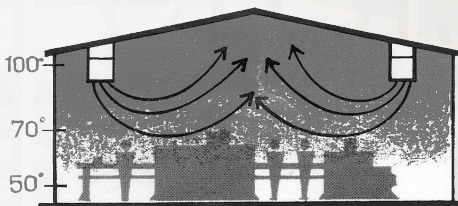

Suffix	Control System Descriptions	Gas
SP	Automatic spark ignition on pilot with safety burner shut-off, 24VAC with intermittent pilot. Thermostat is shipped with unit. (pilot is off when heater is off)	NG or LP
PP	Power pile (self-generating) millivolt control. No outside electrical source is required to operate unit. Manually lit pilot, safety shut-off on pilot & burner.	NG or LP

DECORATIVE KITS

Easily convert restaurant / patio installations

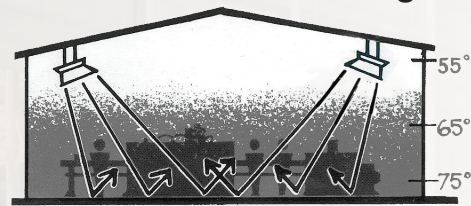

Item #	Description	Kit Contents
F104440	4000 Series Decorative Grid Kit	Grid, screws, retention clip
F104441	4000 Series Decorative Grid kit, retro-fit	New reflector, grid, screws, retention clip
F104445	8000 Series Decorative Grid Kit	Grid, screws, retention clip
F104446	8000 Series Decorative Grid kit, retro-fit	New reflector, grid, screws, retention clip

Warm Air Convection Heating

Forced warm air units heat from ceiling down. Wasted layers of heat stay at ceiling level, leaving floors cold, drafty, and uncomfortable.

Infrared Gas Heating

Enerco infrared heaters direct line-of-sight radiant heat to floor-level objects, which in turn, heat surrounding air to desired temperature. Personnel and objects at floor level enjoy instant, cost-saving comfort.

Always check local codes for permitted use.
