

# Tile & Grout Stain Remover

Professional formula penetrates and removes dirt, grease and mineral deposits and stains from tile and grout lines.

Especially effective in removing heavy build-up of fats, oils and greases in food service areas.

Ideal for daily cleaning of tile surfaces and grout in kitchens, pool areas, restrooms, showers and locker rooms.

## DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

## Application:

Dilute product depending on soil type and concentration. For light-duty cleaning, dilute 8-12 ounces per gallon. For medium-duty cleaning, dilute 16-24 ounces per gallon. For heavy-duty cleaning, do not dilute.

Sweep or vacuum to remove loosen soil. Apply directly on soiled grout lines. Allow to remain a few minutes depending on soil type and concentration. Agitate with a stiff brush or cleaning pad. Vacuum any wash solution with extraction tool. Allow surface and grout to dry before allowing traffic on floors.

Pre-Test: Do not use on marble, limestone and other sensitive surfaces. Always pre-test first. Process pre-test in an inconspicuous location.
