

Bioenzymatic Drain Maintainer

Open and maintain drains the natural way using bioenzymatic action to break down organic materials such as grease, soap, grease & fat, food, waste and scum which can be the source of slow moving and clogged drains and plumbing. Reduces buildup in pipes, grease traps, sumps, septic systems, drain fields, pits and drain lines. Keeps plumbing flowing freely and eliminates odors.

DIRECTIONS:

Read cautions and first aid before use. Shake gently before use.

1. Apply at time of low to no flow.
2. Allow product to remain in pipes and drains for several hours before using.
3. Repeat procedure on 2-3 consecutive days in the beginning then do periodic maintenance as needed.

Drain cleaning / opening: Apply 6-12 oz. (177-355 mL) per drain.

Drain maintenance: Apply 2-4 oz. (59-118 mL) per drain.

Grease traps / Sump pits: Add 8 oz. per 25 gallon (237 mL per 95 liters) capacity.

Septic systems: Add 8 oz. per 1000 gallon (237 mL per 3,785 liters) capacity.

GLOBAL FACTS

- Safe bioenzymatic action
- No harsh chemicals
- Acid-free; no fumes
- Keeps drains flowing freely
- Reduces and eliminates odors

MARKETS

- Food Service
- Hospitality & Lodging
- Healthcare
- Education
- Commercial Buildings

SPECIFICATIONS

Color	Green
Scent	Fresh & Clean
pH	7.0 - 9.0
Viscosity	Water Thin

REORDER

670278 4x1 Gallon/Case
