

# Ice Melt Residue Cleaner

Neutralize and remove the harmful white haze residue left on hard floors after using salt and other ice melting compounds. Protects and extends the life of any floor coating and restores the shine and gloss of the finish. Use on any surface exposed to salt or ice melting compounds including entrance matting, carpets, sidewalks and equipment. Use as a floor neutralizer after stripping to condition floor and insure superior bonding & appearance of any floor seal or finish.

## DIRECTIONS:

### Read cautions and first aid before use. Ice melt neutralizing:

1. Add 1-2 oz. (30-59 mL) of Ice Melt Residue Cleaner per gallon (4 liters) of warm water.
  2. Use clean mops and change mop water frequently.
- Use in automatic scrubbers or pressure washers at the same dilution ratio.

### Floor conditioning:

1. After stripping the floor, add 1 oz. (30 mL) of Ice Melt Residue Cleaner per gallon (4 liters) of water during the final rinse.
2. Allow floor to dry before applying seal or finish.

## GLOBAL FACTS

- Neutralizes harmful ice melt residue
- Prolongs the life/beauty of any floor
- Use on hard floors and carpets
