American BioTech Supply offers a full line of medical grade refrigerators and freezers designed to meet current federal, state and vaccine manufacturers’ guidelines for vaccine storage.
According to the Center for Disease Control, failure to adhere to recommended specifications for storage and handling of immunobiologics can reduce or destroy their potency, resulting in inadequate or no immune response in the recipient. Maintenance of vaccine quality is the shared responsibility of all handlers of vaccines from the time a vaccine is manufactured until it’s administered.

The Immunization Action Coalition states that all vaccines should be stored in a refrigerator or freezer that is designed specifically for the storage of biologics or, alternatively, in a separate dedicated unit. A dorm-style combination refrigerator-freezer unit with just one exterior door has been shown to be unacceptable no matter where the vaccine was placed inside the unit. Stand-alone refrigerator or freezer units are best for storage needs. Accurate and uniform temperature in a refrigerator plays a key role in ensuring the life of vaccines, reagents and other biologicals. Research has shown that minor variances in temperature such as those in a household refrigerator can compromise the effectiveness of your biologicals, risking up to thousands of dollars in valuable contents.

Today it is more important than ever to protect your vaccines, your customers, and your institution from inadequate vaccine storage.

**Key Messages:**

**Vaccine Storage Equipment**
- CDC recommends stand-alone units or pharmacy grade/purpose-built units
- CDC does not recommend (and VFC does not allow) storage of any vaccine in a dormitory-style or bar-style refrigerator under any circumstances
- Set refrigerator temperature mid-range to achieve an average of 41°F (5°C)
- The freezer should maintain temperatures between -58°F and +5°F (-50°C and -15°C)

**Temperature Monitoring Equipment**
- CDC recommends (and VFC requires) using only calibrated temperature monitoring devices with a Certificate of Calibration
- Calibration testing should be performed every one to two years
- CDC recommends having a back-up thermometer
- CDC recommends using digital data loggers for continuous temperature monitoring

It is estimated that $20 million is wasted annually from poor refrigeration, and up to 35% of vaccines are effected by improper storage.
**Premier Refrigerator**

- Microprocessor temperature controller
- Digital temperature display with sample simulated probe
- Audible and visual high and low temperature alarms
- Remote alarm contacts (excluding PH-ABT-HC-UCBI-0420A)
- Adjustable operating temperature range:
  - Refrigerator: 36°F – 46°F (2°C - 8°C)
  - Freezer: 4°F – -13°F (-15°C - -25°C)
- Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration, with min/max memory, °F/°C switchable
- Vaccine storage power cord warning label
- Keyed door lock
- Magnetic door gasket for positive seal
- Leveling legs
- Probe access port (3/8”)
- High density urethane foam cabinet and door insulation
- Hydrocarbon natural refrigerant (R600a)
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Pyxis®, Omnicell® and AcuDose RX® compatible
- Defrost:
  - Refrigerator: Cycle defrost
  - Freezer: Auto & Manual defrost available
- ADA compliant units available
- Two year parts and labor warranty
- UL/C-UL listed

**Premier Freezer**

- Microprocessor temperature controller
- Digital temperature display with sample simulated probe
- Audible and visual high and low temperature alarms
- Remote alarm contacts (excluding PH-ABT-HC-UCBI-0420A)
- Adjustable operating temperature range:
  - Refrigerator: 36°F – 46°F (2°C - 8°C)
  - Freezer: 4°F – -13°F (-15°C - -25°C)

- Defrost:
  - Refrigerator: Cycle defrost
  - Freezer: Auto & Manual defrost available
- ADA compliant units available
- Two year parts and labor warranty
- UL/C-UL listed

**Key Features**

- Front Ventilation design allows units to be built completely into casework
- Sample Simulated Temperature Display & Alarms
- Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration
- Environmentally friendly, natural hydrocarbon (HC) refrigerants which vastly reduce global-warming potential while meeting new EPA/SNAP mandates

**Now Featuring!**

- Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration
- Environmentally friendly, natural hydrocarbon (HC) refrigerants which vastly reduce global-warming potential while meeting new EPA/SNAP mandates

**Pharmacy Premier Built-In Undercounter Refrigerators & Freezers**

- BUILT-IN UNDERCOUNTER REFRIGERATORS AND FREEZERS

  Front Ventilation design for built-in applications between pharmacy cabinetry

  The Pharmacy Premier Built-In Undercounter Refrigerators & Freezers take a large step forward in performance from past solid door general purpose units; offering a digital temperature display and alarm module coupled with a microprocessor temperature controller.

- Now Featuring!

  Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration

  Environmentally friendly, natural hydrocarbon (HC) refrigerants which vastly reduce global-warming potential while meeting new EPA/SNAP mandates

**Premier Refrigerator**

**Now Featuring!**

Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration

**Requires at least 4" of clearance on each side for adequate ventilation**

*DISCLAIMER: Auto defrost freezers incorporate an electric heater installed on the evaporator that assists in the removal of the frost and ice. Although the heater helps speed up the frost and ice removal, it can raise the temperatures within the freezer. These air temperature spikes can be harmful to some medical and laboratory products.*

*Environmentally friendly, natural hydrocarbon (HC) refrigerants which vastly reduce global-warming potential while meeting new EPA/SNAP mandates*
Premier Compact Pharmacy/Vaccine Refrigerators

An economical choice for low to mid volume pharmacies

Key Features

- Microprocessor temperature controller
- Digital temperature display with sample simulated probe
- Audible and visual high and low temperature alarms
- Remote alarm contacts
- Adjustable operating temperature range:
  Refrigerator: 36°F – 46°F (2°C - 8°C)
  Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration, with min/max memory, °F/°C switchable
- Six adjustable shelves with guard rail on back to prevent product from being pushed against back wall
- Bottom footed shelf to allow for proper air circulation
- Back wall evaporator cover
- Forced draft circulation
- Vaccine storage power cord warning label
- Keyed door lock
- Magnetic door gasket for positive seal
- Leveling legs
- LED interior light
- Probe access port (3/8”)
- Powder coat paint exterior
- High density urethane foam cabinet insulation
- Hydrocarbon natural refrigerant (R600a)
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Pyxis®, Omnicell® and AcuDose RX® compatible
- Note: This unit must have 4” clearance on each side and back for adequate ventilation
- Cycle defrost
- Two year parts and labor warranty, plus an additional three year compressor parts warranty
- UL/C-UL listed

PH-ABT-HC-10PS

Premier Refrigerator

Refrigerator freestanding thermometer with 3 year certificate of calibration

Requires at least 4" of clearance on each side for adequate ventilation

Now Featuring!

Pharmacy Premier Stainless Steel Refrigerators

Standard features include a microprocessor temperature controller and display for superior temperature control, verification, and rapid temperature recovery after door openings.

Stainless Steel Pharmacy Premier Refrigerators

Featuring a microprocessor temperature controller, allowing for precise temperature control, recovery and maintenance versus mechanical style thermostats. Critical samples and supplies are security backed with an extensive package of temperature security and alarm features.

Now Featuring!
Refrigerator freestanding thermometer with 3 year certificate of calibration

Key Features

- Microprocessor temperature controller
- Digital temperature display with sample simulated probe
- Audible and visual high and low temperature alarms
- Remote alarm contacts
- Adjustable operating temperature range:
  Refrigerator: 36°F – 46°F (2°C - 8°C)
- Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration, with min/max memory, °F/°C switchable
- Vaccine storage power cord warning label
- Keyed door lock
- Magnetic door gasket for positive seal
- Integrated door handle
- Swivel casters (adds 6 1/2” to height)
- Interior light
- Probe access port (3/8”)
- Stainless steel interior floor; stainless steel exterior
- High density urethane foam cabinet insulation
- CFC-free refrigerant (R134a)
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Cycle defrost
- Two year parts and labor warranty, plus an additional three year compressor parts warranty
- UL/C-UL listed
Dual Temperature/Space Saving Pharmacy Premier Refrigerator/Freezer Combos

A variety of sizes and configurations to provide a solution where space is at a premium

**Key Features**

- Microprocessor temperature controller, refrigerator and freezer
- Digital temperature display with sample simulated probe, refrigerator and freezer
- Audible and visual high and low temperature alarms, refrigerator and freezer
- Remote alarm contacts, refrigerator and freezer
- Adjustable operating temperature range:
  - Refrigerator: 36°F – 46°F (2°C - 8°C)
  - Freezer: -4°F – -13°F (-15°C - -25°C)
- Two Refrigerator/Freezer freestanding thermometers with 3 year certificate of calibration, with min/max memory, °F/°C switchable
- Vaccine storage power cord warning label
- Keyed door locks
- Bottom footed shelf to allow air circulation, Refrigerator and Freezer
- Two independent mechanical Refrigeration systems; 1 compressor - Refrigerator, 1 compressor - Freezer
- Forced draft circulation, Refrigerator
- Magnetic door gasket for positive seal
- Leveling legs
- Stacking kit
- Two probe access ports (3/8”): one, refrigerator/one, freezer
- HFC-free refrigerant (R600a) for all models (excluding the PH-ABT-RFC-16A)
- CFC-free refrigerant (R134a) for PH-ABT-RFC-16A model only
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Defrost: Refrigerator: Cycle defrost Freezer: Auto & Manual defrost available
- Two year parts and labor warranty, plus an additional three year compressor parts warranty
- U/L/UL listed

*DISCLAIMER: Auto defrost freezers incorporate an electric heater installed on the evaporator that assists in the removal of the frost and ice. Although the heater helps speed up the frost and ice removal, it can raise the temperatures within the freezer. These air temperature spikes can be harmful to some medical and laboratory products.*

Key Features

- Microprocessor Temperature Controller
- Standard digital temperature display and alarm module with battery back-up to support temperature monitoring and alarms
- Audible and visual high/low temperature alarms
- Remote alarm contacts
- 2 probes; 1 in air and 1 in sample simulated bottle
- Sample simulated digital temperature display; .1° Resolution
- Adjustable temperature display in Celsius or Fahrenheit
- Adjustable operating temperature range:
  - Refrigerator: 36°F – 46°F (2°C- 8°C)
- Refrigerator/Freezer freestanding thermometer with 3 year certificate of calibration, with min/max memory, °F/°C switchable
- Vaccine storage power cord warning label
- Keyed door lock
- Sensor error alarm
- Power failure alarm
- Resettable 1-point Min/Max History
- Alarm validation (audible, visual, and remote alarm)
- Alarm mute with ring back
- Magnetic door gasket for positive seal
- LED interior lights are safety shielded and switch controlled
- Swivel Casters (3 1/2”)
- Probe access port (3/8”)
- Powder coated steel white exterior and interior
- CFC-free refrigerant (R134a)
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Cycle defrost
- Two year parts and labor warranty, plus an additional three year compressor parts warranty
- UL/C-UL listed

Pharmacy Premier

Large Capacity Refrigerator Units for High Volume Pharmacies

Standard features include a microprocessor temperature controller and display for superior temperature control, verification, and recovery. An interior fan driven, forced-draft air circulation system provides excellent temperature uniformity and recovery after door openings. An extensive package of audible and visual alarms is provided to protect critical samples and vaccines.

Large, Bi-color LED sample temperature display and alarm.
### Standard Pharmacy Glass & Solid Door Refrigerators

The all-new Pharmacy Standard Series Glass & Solid Door Pharmacy Refrigerators are purpose built for pharmacy and medical applications. The new Standard Series Glass & Solid Door Pharmacy Refrigerators feature a digital microprocessor temperature controller allowing for the precise temperature management necessary for critical samples and supplies.

A forced air directional refrigeration system provides superior temperature uniformity and recovery after door openings. An automatic cycle-defrost design prevents product damaging temperature spikes.

The all-new temperature display and alarm module offers product security with a monitoring and alarm system. Real-time sample simulated temperatures are constantly displayed and supported by audible/visual high and low temperature alarms. Remote alarm dry contacts and an access port are provided to simplify connections to existing facility monitoring systems.

### Key Features

- Microprocessor temperature controller
- Adjustable operating temperature range:
  - Refrigerator: 36°F – 46°F (2°C–8°C)
- Refrigerator/frezer freestanding thermometer with 3 year certificate of calibration, with min/ max memory, °F/°C switchable
- Digital temperature display with sample simulated probe
- Audible and visual high and low temperature alarms
- Remote alarm contacts
- Keyed door lock
- Vaccine storage power cord warning label
- Magnetic door gasket for positive seal
- Heavy duty door handle
- LED interior lights are safety shielded and switch controlled
- Swivel Casters (3 ½”)
- Probe access port (3/8”)
- White powder-coated steel exterior and interior
- CFC-free refrigerant (R134a)
- Pharmacy refrigerator/freezer toolkit and temperature logs
- Cycle defrost
- One year parts and labor warranty, plus an additional four year compressor parts warranty
- UL/C-UL listed
