### Mesh Bag Materials

**Multifilament Mesh** media is woven from threads made of smaller fibers. Bags made from this material are low cost and disposable.

**Monofilament Mesh** is woven from single-fiber threads. The openings are square and uniform. Bags made from this material have excellent strength.

### Mesh Bag Styles

Steel-ring bags have a galvanized steel ring (stainless steel optional) sewn into the top of the bag. They are supplied with sewn seams standard.

Plastic flange bags have a specially-designed flange sewn to the top of the bag. They are supplied with sewn seams standard (welded collars available upon request).
