Lip

M4 x 13 Phillips Pan
Head Machine Screw

fig – 2

To attach the keyboard tray to the articulating arm, slide the lip of the bracket
into the back of the keyboard tray. Then, screw in the two M4 x 13 Phillips Pan
Head Machine Screws into the keyboard tray bracket. (See *fig – 2*)

fig - 3

AFPDA   Hardware List

1 – Sliding Mount
1 – Arm Assembly
2 – M4 x 13 Phillips Pan Head Machine Screw
1 – Upright Clamp Assembly
2 – $\frac{5}{16}$-18 x 1" Hex Head Cap Screws
Lip

M4 x 13 Phillips Pan Head Machine Screw

fig – 4

To attach the display arm to the articulating arm, slide the lip of the bracket into the back of the display arm. Then, screw in the two M4 x 13 Phillips Pan Head Machine Screws into the display arm bracket. (See *fig – 4*)

fig - 5

FPDA   **Hardware List**

1 – Arm Assembly
1 – Upright Clamp Assembly
2 – $\frac{5}{16}$-18 x 1" Hex Head Cap Screws

Upright Clamp

$\frac{5}{16}$-18 x 1" Hex Head Cap Screws

Arm Assembly

fig - 6

KBAA/AFPDA/FPDA

To attach the articulating arm to the upright place the arm into the desired slot on the upright. Place the other upright clamp on the other side of the upright and insert the two $\frac{5}{16}$-18 x $\frac{3}{4}$" Phillips Pan Head Machine Screws provided. (See *fig – 6*)
fig - 7

PFSMA   **Hardware List**

1 – Arm Assembly
1 – Upright Clamp Assembly
2 – $\frac{5}{16}$-18 x 1" Hex Head Cap Screws

PFSMA

See additional Human Scale directions in the product box for adjusting the control of the arm movement and mounting the monitor plate.

Upright Clamp

$\frac{5}{16}$-18 x 1" Hex Head Cap Screws

Arm Assembly

fig - 8

KBAA/AFPDA/FPDA/PFSMA

To attach the articulating arm to the upright place the arm into the desired slot on the upright. Place the other upright clamp on the other side of the upright and insert the two $\frac{5}{16}$-18 x 1" Hex Head Cap Screws provided. (See *fig – 6*)

Hardware List

1 – Articulating Arm
1 – Upright Clamp Bracket
2 – Attachment Screws
2 – Lock washers

Articulating Arm – actual type
may vary, but end arm
knuckle will be the same

Upright Clamp
Bracket

M8 x 30mm cap screws
and lock washers

Arm Knuckle

fig – 1

Remove the two M8 Cap Screws from the Arm Knuckle. Align Upright Clamp Bracket with the holes on the Arm Knuckle the M8 Cap Screws were removed from. Insert and tighten the cap screws with lock washers. (See *fig – 1*)
