ACCESS MANAGEMENT SOLUTIONS

MASTER LOCK® VAULT ENTERPRISE

The Master Lock Company

Advanced Security and Access Management System

Master Lock, the industry's security leader for more than 95 years, is changing the way businesses of all sizes securely manage access to many doors and locks across a single team or an entire enterprise. Our new Master Lock Vault Enterprise software, designed for commercial use, and suite of *Bluetooth*® enabled hardware provide the most convenient way to control access, manage assets and improve accountability. This proven security innovation eliminates the cost, security risk and complexity of physical key management.

Smart. Simple. Secure.

- Integrated software platform enables you to grant access to individuals, multiple users and user groups—temporarily or on an ongoing basis

- User-friendly interface and Bluetooth technology provide fast and easy access

- Real-time access control optimizes scheduling and enhances security

INNOVATIVE FEATURES:

- Efficiently manage access to ensure the right users have the right access

- Simplify security set-up with bulk user and lock uploads

- Map lock, lock box and door locations via smartphone

- Easily monitor access and access history with robust data and audit trails

- Confidently provide back-up access entry method for locks and lock boxes with manual, directional or numeric code

- Leverage the security of 256-bit, military-grade encryption

Bluetooth®

The Simplicity and Savings of Keyless Security

Combine the cost benefits and convenience of keyless security with the control, flexibility and accountability of Bluetooth enabled hardware and integrated Master Lock Vault Enterprise software. This integrated solution provides efficient and effective administration of security management and user access.

Facilities

NO KEYS TO LOSE • NO COMBINATIONS TO FORGET • NO UNAUTHORIZED KEY DUPLICATION

- Secure buildings, areas, materials, equipment, keys or keycards
- Easily assign access to groups or individuals by time and date
- Efficiently manage access to many doors and locks by many users
- Increase accountability and efficiency with audit trail

Real Estate

NO LONG-TERM CONTRACTS • NO MONTHLY FEES • NO SHARED ACCESS FEES

- Share access quickly and easily with showing agents, contractors, inspectors or even homeowners
- Conveniently schedule temporary, permanent or future access
- Monitor activity by device and user
- Integrates with ShowingTime®, the real estate industry's leading showing management technology provider (nominal ShowingTime service fees may apply)

Integrates with

ShowingTime®

"Southwest Airlines is known for providing superior customer service, and our daily operations play a key role in our success. In a busy, time-driven environment like an airport, it's critical that we can effectively and efficiently manage access to our tugs so they're available when and where employees need them. Master Lock Vault Enterprise checks those boxes and I'd recommend the solution to any operations team looking for a better way to manage access to the many locks within their facility."

Pat Brumm, Manager, Southwest Airlines at Denver International Airport

Flexible Asset Management

Whether it's one door, one lock or thousands, Master Lock Vault Enterprise provides unmatched security, simplicity and accountability. With the convenient web interface, administrators can remotely grant or revoke access for an individual or group, a single lock or system-wide. The software maintains detailed access history—including unlock, open and relock activity—by each user and lock.
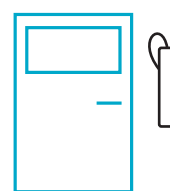

- Simple configuration to enable system-wide customization
- Create multiple subgroups and individualize access levels
- Review robust audit trail by user and lock

CUSTOMIZED

"The Master Lock Vault Enterprise system allows us to give access to key people during a property closing process. I can grant secure access without having to leave the office and meet each person. This is a huge time saver and allows my staff to stay focused on other tasks."

Nicole Martyniuk, Real Estate Office Manager

Bluetooth Enabled Hardware

The Master Lock Vault Enterprise suite of Bluetooth enabled products can be mixed and matched to meet your facility's security application needs. Administrators experience the convenience of simplified access management and authorized users open assigned locks and doors with their smartphone.

Efficient, Secure, Accountable

"Tracking down lost tools and equipment takes time and reduces productivity. With Master Lock Vault, we know who used them last and where—and that saves money."

Bryan Zavitz, Yard Supervisor, The Pike Company

"We want to serve our clients to the best of our ability, and this includes embracing technology that allows us to provide real-time information and the level of security our higher-end market expects and demands. Master Lock Vault Enterprise and Bluetooth lock boxes are far ahead of anything I've seen in the market. It's the kind of product we need to take our business to the next level."

Mark Siwiec, Real Estate Broker

DOOR ACCESS MANAGEMENT SOLUTIONS

MASTER LOCK® VAULT ENTERPRISE

NO KEYS TO LOSE • NO COMBINATIONS TO FORGET • NO UNAUTHORIZED KEY DUPLICATION

An affordable door access management solution that offers smart, simple and secure entry to commercial properties.

Master Lock, the industry's security leader for more than 95 years, is expanding its *Bluetooth*® enabled product family to offer security professionals and their customers cost-effective door access control. Ideal for commercial properties, the Master Lock Bluetooth Door Controller wires into electric strikes or magnetic locks and operates with the easy-to-use Master Lock Vault Enterprise smartphone app. This full solution offers businesses the simplicity and savings of keyless security with the added benefit to control, monitor and track building access.

For the installer:

- Easy installation—wires into electric strikes and magnetic locks
- Simple account setup—quickly onboard customers
- Easy-to-use software—minimal ongoing software support

For the user:

- Secure door access—only those with an authorized device can enter
- Grant or revoke access quickly—efficiently ensure the right users have the right access
- Valuable audit capabilities—easily monitor access and access history with robust data and audit trails

The **Master Lock** Company

Bluetooth Door Controller

Easily installs into electric strikes or magnetic locks to provide secure access to commercial properties.

- Slim profile fits common door frames
- Works with most electric strikes
- Strong Bluetooth signal for reliable connectivity
