| Desktop (5) | 1 | | Cable Clip (11) | 4 | | |
| Rubber Covers (6) | 4 | | | | | |

Product Description

Installation

1. Using an M4 allen wrench, attach both sets of caster wheels (locking and non-locking) to the metal base. Ensure that the non-locking casters are installed on the "back" side of the base. Place rubber covers onto each leg.

2. Attach column to desktop. Ensure that column "back" label and desktop "back" label are on the same side. Connect bowden cable to latch as shown.

3. Using an M5 allen wrench, connect column to desktop.

4. Using an M5 allen wrench, connect the metal base to the column.

Product Description

5. Using an M5 allen wrench, remove safety screw that is connected to the column. DO NOT adjust table height without removeing the safety screw first.
