

# Quick-Fit®

***THE WORLD'S FASTEST DUCTING***

# MINING FACILITIES

*Nordfab's Quick-Fit® is a great fit for Mining applications. Quick-Fit clamp-together ducting eliminates rivets, screws, welds and flanges. The clamp-together design allows installations, clean-outs and changes to take only a fraction of the time it takes for traditional ducting. Nordfab® Quick-Fit's leak-tight longitudinal seams provide smooth, no hang-up interiors.*

## BENEFITS

- Laser Welded pipe in diameters from 3" to 24"
  - Flanged ducting in diameters up to 48"
  - Branch fittings in all sizes and shapes
  - Elbows 30°, 45°, 60°, 90°
  - Larger custom sizes and special adapters
  - Blast Gates, Diverter Valves, Hoods, Manifolds
  - Galvanized, Stainless Steel, Carbon Steel
- 30% less labor, 30% less downtime for installation.
  - Easily installed by in-house staff, using manlifts rather than expensive cranes.
  - Easy to clean out. Sections can be easily removed, cleaned out, then replaced - without tools.
  - Heavy duty parts available
  - Adaptable to high temperatures and corrosive environments
  - Adaptable to existing ductwork.
  - Re-useable, easy to modify and easy to move as your needs change, reducing lifecycle costs.
  - Clog conditions can be easily and quickly corrected.
  - Heavy automation and large volumes make Quick-Fit less expensive. With the labor saved on installation, the installed cost is significantly cheaper than traditional ducting.
  - Nordfab provides quick delivery times and lower freight costs.
  - Local support. Our dealers can provide design and layout assistance.
